

USA Movie Cars Launches RentAnAmbulance.com – New Dedicated Platform for Authentic Ambulance Rentals in Film and TV

New specialized platform offers producers and filmmakers nationwide access to authentic classic and modern ambulances for film, TV, commercials, and photo shoots.

Phoenix, Arizona Apr 23, 2026 ([Issuewire.com](https://www.issuewire.com)) - USA Movie Cars, a leading nationwide picture car rental company, has announced the official launch of RentAnAmbulance.com, a specialized website

offering classic and modern ambulances for film, television, commercials, music videos, and photo shoots.

The new platform provides producers and filmmakers with convenient nationwide access to production-ready emergency vehicles across the United States, with select options also available in Canada and the United Kingdom. The fleet includes vintage box-style ambulances, contemporary rescue vehicles, and ambulance-style SUVs, all equipped with realistic lighting, authentic markings, and detailed interiors.

“RentAnAmbulance.com makes it easier than ever for productions to find the right ambulance picture car,” said a spokesperson for USA Movie Cars. “We focus on delivering vehicles that bring credibility and visual impact to emergency scenes in any project.”

Users can browse detailed vehicle photos and specifications on the site. The platform also welcomes ambulance owners to list their qualifying vehicles at no upfront cost, expanding the inventory available to the entertainment industry.

RentAnAmbulance.com joins USA Movie Cars’ family of niche picture car rental sites, including CopCarRental.com and RentAHearse.com. The company has successfully supplied vehicles to major studios and networks such as Disney, Warner Bros., ABC, and Discovery.

Filmmakers, directors, and production teams can now explore available ambulances and request quotes directly at the new website.

For more information or to reserve an ambulance for your next production, visit <https://rentanambulance.com>.
