

## Vision Supra Partners introduces a new vision for luxury real estate at SIL 2026

Vision Supra Partners debuts the VSP Live Session at SIL 2026, introducing a new strategy for luxury real estate. The Luso-Swiss developer presents a portfolio of over 600 units, focusing on transparency and investment rationale.

**Lisbon, Lisboa e Vale do Tejo Apr 11, 2026 ([IssueWire.com](https://www.issuewire.com))** - The luxury real estate market is evolving. Today's buyers demand more than high-quality renders; they seek to understand the rationale behind their acquisition, the identity of the developer, and the underlying investment thesis. Vision Supra Partners has responded to this shift with a pioneering approach, officially presented at SIL 2026.

At SIL 2026, Portugal's premier real estate exhibition (April 23-25 at the FIL Exhibition Centre, Parque das Nações), the Luso-Swiss developer introduces the VSP Live Session. This proprietary live communication format redefines how high-value real estate is explored and understood.

The concept integrates real-time strategic project analysis, direct audience interaction, and simultaneous broadcasting across multiple digital platforms. The objective is not merely to showcase properties but to provide investors with a deep understanding of the decision-making process behind

each project.

**“When the client understands the rationale, they trust the project. And when they trust, they decide,” says António Francisco, CEO and founder of Vision Supra Partners.**

The initiative will be spearheaded by **Sophia Martins**, a prominent figure in the Brazilian real estate sector, alongside **António Francisco** and the sales team from RE/MAX Alcateia. **The team is led by Cláudia Ferreira, a broker with over 25 years of expertise in the Portuguese market, managing exclusive sales for Vision Supra Partners.**

#### Company and Market Context

Vision Supra Partners is a Luso-Swiss developer operating an integrated model that oversees every stage—from land acquisition and licensing to architecture, construction, and marketing. For international investors, this vertical integration ensures a critical asset: predictability.

The company is led by António Francisco, who was featured on the cover of the inaugural Forbes Lab edition dedicated to growth leaders in Portugal’s real estate sector. His leadership has shaped a company that currently manages a pipeline of more than 600 units under development.

#### Featured Developments

At SIL 2026, Vision Supra Partners will showcase four hallmark projects:

**Naus Eco Village (Barreiro):** The region’s first private luxury condominium, featuring a sustainable cork façade and A+ energy efficiency. Winner of the Luxury Lifestyle Awards 2026.

**Sobreiro Residences (Mafra):** Designed by the award-winning Plano Humano Arquitectos, nominated for the European Union Prize for Contemporary Architecture – Mies van der Rohe Award.

**Vale das Amendoeiras (Sesimbra):** A residential enclave of 71 apartments offering a unique dual view of the Atlantic Ocean and the Arrábida mountains.

**Florien (Castanheira do Ribatejo):** A project seamlessly connecting modern construction quality with the serene landscapes of the Tagus River, just north of Lisbon.

The stand will offer virtual reality stations, immersive sensory environments for each development, and a private lounge dedicated to institutional investors.

For those considering Portugal as a destination for living or strategic investment, SIL 2026 is a unique opportunity to access primary information and meet the team behind one of the most dynamic developers in the Lisbon Metropolitan Area.
