

## West Yorkshire Furniture Maker Rose & Walker Brings Handcrafted British Design Direct to Homes Across the UK

The Keighley-based workshop combines traditional craftsmanship with modern materials, offering bespoke furniture with free UK mainland delivery and a lifetime guarantee.

**Leeds, West Yorkshire Apr 8, 2026 ([IssueWire.com](https://www.issuewire.com))** - Rose & Walker, a British furniture company specialising in handcrafted modern furniture, continues to grow its reputation for combining premium materials with skilled workshop production. Every piece is designed and built by the small team at their West Yorkshire workshop, using solid oak, tempered glass, natural marble, quartz, and powder-coated steel frames.

Founded on the principle that quality furniture shouldn't mean compromising on style or waiting months for delivery, Rose & Walker sells directly to customers through its online store at [roseandwalker.co.uk](https://roseandwalker.co.uk). The range spans living room, bedroom, dining, hallway, office, and outdoor furniture, with most items arriving fully assembled and shipped free to UK mainland addresses.

### **Built to Order, Built to Last**

Unlike mass-produced furniture retailers, Rose & Walker manufactures in-house. Their product range includes coffee tables, console tables, side tables, bedside tables, dressing tables, dining tables, TV and media units, seating, shelving, planters, and outdoor fire pits. Frame finishes include matte black, dark bronze, gold, and silver, paired with tops in tempered glass, solid oak, natural marble, and quartz.

The company also runs a bespoke commissioning service. Customers can request modified dimensions, alternative finishes, or entirely custom designs to match existing interiors. Every product comes with a lifetime guarantee.

### **A Personal Approach to Furniture**

A spokesperson for Rose & Walker said: *"We started Rose & Walker because we felt there was a gap*

*between the throwaway furniture you find on the high street and the eye-watering prices of designer showrooms. Everything we make is built by hand in our Keighley workshop, using materials that look good and last. We want people to buy a piece from us and still love it in twenty years."*

### **Flexible Payment and Delivery**

[Rose & Walker](#) offers Klarna financing, allowing customers to spread the cost with Pay in 3 or Pay Later options. Free delivery is included on all UK mainland orders, with the majority of products dispatched fully assembled so customers can enjoy their furniture straight out of the box.
