

## 5+ Years of Excellence: Global Key Info Solutions Emerges as a Trusted Mobile App Development Company in India

Global Key Info Solutions is India's trusted affordable mobile app development company, delivering high-performance iOS and Android apps for startups and growing businesses worldwide.

**Noida, Uttar Pradesh May 12, 2026** ([Issuewire.com](http://Issuewire.com)) - In today's fast-evolving digital economy, businesses across every industry are under mounting pressure to go mobile or risk falling behind. Global Key Info Solutions, a rising [mobile app development company in India](#), is meeting this demand head-on

by delivering custom mobile applications, travel booking platforms, on-demand solutions, and mobile-responsive websites that empower startups, SMEs, and enterprises to compete and grow in the global digital marketplace.

With over 75% of digital interactions now happening through mobile devices, the need for reliable, scalable, and high-performance mobile applications has never been greater. Yet many businesses struggle to find a development partner that combines technical excellence with real industry understanding. Global Key Info Solutions bridges that gap offering end-to-end mobile app development services that go far beyond writing code, focusing on delivering measurable business outcomes for every client.

## **Comprehensive Mobile App Development Services Tailored for Global Markets**

Global Key Info Solutions offers a full spectrum of mobile app development services in India, designed to serve diverse industries and business models. The company's core service portfolio includes:

- **Travel App Development** — Custom travel booking apps, itinerary planners, OTA platforms, and hotel booking solutions with real-time GDS API integrations
- **On-Demand App Development** — Scalable on-demand platforms for logistics, delivery, service booking, and marketplace models
- **Mobile Responsive Website Development** — Mobile-first websites that convert visitors into customers across all devices and screen sizes
- **iOS and Android App Development** — Native and cross-platform apps built with Flutter and React Native for maximum performance and cost efficiency
- **UI/UX Design** — User-centered design that drives engagement, reduces drop-off, and builds brand trust
- **Post-Launch Support and Maintenance** — Ongoing optimization, feature updates, and performance monitoring to keep apps competitive long after launch

Every solution is built with a clear focus on three outcomes: faster time to market, higher user engagement, and stronger return on investment.

## **Serving Travel, Hospitality, and On-Demand Sectors with Specialized Expertise**

One of Global Key Info Solutions' key differentiators is its deep domain expertise in the travel technology and on-demand services space. As airlines, hotel chains, and OTAs continue to dominate digital channels, independent travel businesses are losing 15–30% of every booking to third-party platforms. Global Key Info Solutions helps these businesses fight back building direct booking mobile apps and mobile-responsive websites that eliminate commission dependency, build customer loyalty, and generate sustainable direct revenue.

Every travel business, hospitality brand, and on-demand service provider deserves a digital product that works as hard as they do," said Tarun Sondhi, Founder of Global Key Info Solutions. We are not just building apps. We are building competitive advantages. Our mission is to help businesses across India and globally take ownership of their digital presence and turn it into a revenue engine.

The company serves clients across India, offering flexible engagement models that include dedicated development teams, fixed-price project delivery, and long-term technology partnership arrangements.

## **Why Businesses Choose Global Key Info Solutions**

As a mobile app development company in India, Global Key Info Solutions stands out for its combination of technical depth, transparent process, and client-first delivery approach. Key strengths that clients highlight include domain-specific expertise across Real state and on-demand industries, agile development methodology with milestone-based delivery, dedicated project management and real-time communication, competitive pricing with no compromise on quality, and comprehensive post-launch support backed by defined service level agreements.

India's mobile application market is projected to reach \$27,675.5 million by 2030, growing at a CAGR of 17.8%. Global Key Info Solutions is positioned to help both Indian and international businesses capture their share of this growth through digital products that are built to perform, scale, and retain users over the long term.

### About Global Key Info Solutions

Global Key Info Solutions is a mobile app development company in India specializing in travel app development, on-demand app development, mobile-responsive website design, and end-to-end website and mobile app development for startups, SMEs, and enterprises worldwide.
