Temecula, California May 6, 2026 ([Issuewire.com](http://Issuewire.com)) - Affordable Divorce Mediation Now Offering FREE Same-Day Consultations for Southern California Couples

Affordable Mediation & Paralegal Services announces free same-day divorce mediation consultations, helping couples explore a peaceful, cost-effective alternative to courtroom litigation.

Southern California — As more couples seek efficient and affordable ways to resolve divorce without the emotional and financial toll of court proceedings, Affordable Mediation & Paralegal Services is now offering FREE same-day divorce mediation consultations throughout Southern California.

The complimentary consultation provides individuals and couples with an opportunity to understand how structured mediation works, review flat-fee options, and determine whether their matter qualifies as

uncontested.

“Many people delay calling because they assume divorce automatically means court and high attorney retainers,” said a company representative. “Our free same-day consultations allow clients to ask questions, understand the process, and explore a peaceful path forward without pressure.”

### A Structured Alternative to Litigation

Affordable Mediation provides start-to-finish divorce mediation and court-ready documentation services for uncontested matters. Services include:

- Divorce & Custody Mediation
- Parenting Plans & Custody Agreements
- Property & Debt Division
- Full Marital Settlement Agreements
- Complete Court Document Preparation
- Remote Video Mediation Available

Unlike limited document services, the firm delivers a complete, court-ready package — guiding clients from intake through final judgment preparation.

### Designed for Uncontested Matters

Services are available for couples willing to negotiate in good faith and reach mutually agreeable resolutions. The firm does not provide legal advice but offers professional mediation and Legal Document Assistant services to ensure agreements are properly structured and ready for court submission.
