

## Alpha Plus Dental Center in Brookline, MA Offers Holistic and Advanced Dental Care for All Ages

Led by Dr. Stanislav Kovtun, the Brookline dental practice combines mercury-free holistic dentistry, Invisalign, dental implants, laser treatments, and cosmetic care with a personalized whole-body wellness approach.

**Brookline, Massachusetts May 10, 2026** ([Issuewire.com](https://www.issuewire.com)) - Alpha Plus Dental Center, located at 185 Harvard Street in Brookline, Massachusetts, is proud to announce its full range of advanced dental and holistic care services for patients across the Greater Boston area. Led by experienced dentist Dr. Stanislav Kovtun, the practice is built on a simple but powerful belief — that great oral health is a vital part of overall body wellness.

### A Patient-First Approach to Modern Dentistry

What makes Alpha Plus Dental Center different is its whole-body approach to dental care. Rather than simply treating teeth in isolation, the team looks at how oral health connects to a patient's overall physical well-being. Every treatment plan is personalized, every patient is heard, and every visit is designed to be comfortable and stress-free. From the front desk staff to the dental hygienists and

doctors, the entire team is focused on making patients feel welcome and cared for.

Dr. Kovtun brings decades of hands-on clinical experience and advanced training to the practice. He is known for being meticulous, precise, and genuinely caring — qualities that have earned him a loyal patient base and consistently high reviews across platforms like Google and Yelp.

## Services That Cover Every Dental Need

Alpha Plus Dental Center offers a comprehensive menu of dental services for children, teens, and adults. Whether a patient needs routine preventive care or a complete smile transformation, the clinic has the expertise and technology to deliver outstanding results.

[Invisalign](#): For patients who want straighter teeth without metal braces, the clinic offers clear Invisalign aligners that are comfortable, discreet, and affordable. Many patients have completed their Invisalign treatment successfully at this practice and returned for retainers.

**Dental Implants and Zirkolith Implants:** Missing teeth can affect both confidence and function. Alpha Plus Dental Center provides permanent implant solutions, including metal-free Zirkolith implants that are ideal for health-conscious patients who prefer biocompatible materials.

**Holistic and Mercury-Free Dentistry:** The practice is completely mercury-free. No amalgam fillings are used, and existing mercury fillings can be safely removed. This commitment to safe, non-toxic materials is a cornerstone of the holistic care philosophy at Alpha Plus Dental Center.

**Laser Dentistry and Laser Bacterial Reduction:** Advanced laser tools are used to treat gum disease, reduce harmful oral bacteria, and perform soft tissue procedures with greater accuracy and less discomfort compared to traditional methods.

[Cosmetic Dentistry and Teeth Whitening](#): The clinic offers a range of cosmetic treatments to help patients feel confident about their smiles, including professional-grade teeth whitening, veneers, and complete smile makeovers.

**Cone Beam 3D Imaging:** This cutting-edge imaging technology allows the dental team to see detailed three-dimensional views of teeth, bone, and tissue — enabling more accurate diagnoses and safer treatment planning.

[Emergency Dentistry](#): Dental pain and accidents do not wait for convenient times. Alpha Plus Dental Center is available to help patients dealing with sudden toothaches, broken teeth, lost crowns, or other urgent dental situations.

**Full Mouth Reconstruction and Gum Disease Treatment:** For patients with complex dental conditions, the practice offers comprehensive reconstruction plans combining multiple restorative and cosmetic procedures to rebuild function and aesthetics.
