

Attri Tech Machines Pvt. Ltd. Strengthens Global Footprint with Precision-Engineered CNC Components for Automotive

Ghaziabad, Uttar Pradesh May 6, 2026 ([IssueWire.com](https://www.issuewire.com)) - Attri Tech Machines Pvt. Ltd. Strengthens Global Footprint with Precision-Engineered CNC Components for Automotive, Aerospace, and Industrial Sectors

ISO 9001:2015-certified manufacturer based in Ghaziabad expands supply reach across Southeast

Asia, Europe, and the Middle East

Attri Tech Machines Pvt. Ltd. (attritechmachines.com), a precision engineering and component manufacturing company founded in 2005, is reinforcing its position as a trusted global supplier of CNC-machined parts, sheet metal components, dies, and molds for industries including automotive, aerospace, hydraulics, pneumatics, and industrial automation.

Operating from a 23,325 sq. ft. state-of-the-art manufacturing facility in Ghaziabad, Delhi NCR, the company serves clients across India, Southeast Asia — including Indonesia, Singapore, Thailand, the Philippines, and Vietnam — as well as Europe (Germany, France, the United Kingdom, Italy, and Spain) and the UAE and broader Middle East region.

"Our goal has always been to deliver precision components that customers can rely on in the most demanding environments," said Mr. Kuldip Attri, Founder of Attri Tech Machines Pvt. Ltd. "Every component we produce reflects our commitment to accuracy, durability, and on-time delivery — values that have made us a long-term partner for clients across global manufacturing hubs."

Advanced Manufacturing Capabilities

Attri Tech Machines maintains a robust production infrastructure that includes:

- **10 CNC Turning Machines** for high-precision turned parts
- **2 CNC Milling (VMC) Units** for complex geometries
- **2 CNC Wire Cut (Submerged Technology) Units** for intricate die and mold work
- **Power Press Units (20T & 50T)**, EDM drilling, surface grinders, lathe machines, and profile projectors

The company's product range spans throttle shafts for passenger cars and aerospace systems, CNC hydraulic valve components, pneumatic connectors and fittings, carbide components, precision pins, NC turned components, sheet metal parts, and custom mold inserts. All products are manufactured under strict dimensional tolerances and undergo rigorous quality inspection before dispatch.

ISO 9001:2015 Certified Quality

Attri Tech Machines holds ISO 9001:2015 certification, underscoring its systematic approach to quality management and continuous process improvement. Each production batch is accompanied by a comprehensive quality certificate, enabling full traceability and compliance for industries where precision is non-negotiable — including defense, medical device manufacturing, and aerospace.

Custom Engineering and DFM Support

Beyond standard production, the company provides Design for Manufacturability (DFM) consultation, helping clients optimize product designs before production to reduce costly redesign cycles and accelerate time to market. This full-service engineering partnership model has made Attri Tech Machines a preferred supplier for both high-volume batch manufacturing and specialized low-volume prototyping.

About Attri Tech Machines Pvt. Ltd.

Founded in 2005 by Mr. Kuldip Attri, Attri Tech Machines Pvt. Ltd. is a leading manufacturer,

wholesaler, and supplier of precision-engineered components based in Ghaziabad, Uttar Pradesh, India. The company's 23,325 sq. ft. facility is equipped with advanced CNC, VMC, EDM, and wire-cut technology, serving clients in the automotive, aerospace, hydraulics, pneumatics, industrial automation, and general engineering sectors across Asia, Europe, and the Middle East. Attritech Machines is ISO 9001:2015 certified and committed to delivering quality, reliability, and innovation in every component it produces.
