

## Cala Nisa Opens in Soverato: The Ionian Coast's Most Exclusive New Beach Club Terrace

A luxury terrace above the Ionian Sea where summer burns differently. Opening June 2026.

**Soverato, Calabria May 15, 2026 ([IssueWire.com](https://www.IssueWire.com))** - Cala Nisa is coming. The new luxury beach club terrace overlooking the Ionian Sea, set on the seafront of Soverato, Calabria, will welcome its first guests in June 2026. A place designed not to be seen, but to be felt: the salt in the air, the warmth of sun-soaked stone, the music rising with the tide as the sun meets the horizon.

Cala Nisa was born from a precise vision: to bring to Soverato a hospitality experience that celebrates the extraordinary identity of Calabria without borrowing anything from anywhere else. The terrace, positioned directly above the sea, is designed to become the defining destination of the Ionian summer: a space where relaxation, curated music, and refined dining merge into the natural rhythm of the landscape.

At a moment when Calabria is drawing growing attention from national and international travellers in search of authenticity, Cala Nisa chooses to position itself not as an alternative to more celebrated destinations, but as the original answer for those who already know where the truth of the Mediterranean lives.

*“There is a place where the Ionian does not end. It simply begins again. Cala Nisa is that place.”*  
Anthony Neal Macri - Communications Manager, Cala Nisa

From the first drink at golden hour to the last song under the stars, Cala Nisa offers an experience that refuses to be forgotten. Luxury without imitation. Summer without compromise. The Ionian coast as it was always meant to be lived.

The official opening is scheduled for June 2026. Further details on events, programming, and reservations will be announced in the coming weeks through Cala Nisa’s official channels.

## **About Cala Nisa**

Cala Nisa is a luxury beach club terrace located on the seafront of Soverato, Calabria, Southern Italy. Overlooking the Ionian Sea, it offers an integrated experience of relaxation, dining, and entertainment on one of the most breathtaking stretches of the Mediterranean coast. Opening June 2026.
