

## Dana Lau, FNP-BC: Compassionate Family Nurse Practitioner Expanding Access to Specialized Wound Care

Board-Certified Nurse Practitioner Combines Advanced Wound Care Expertise, Mobile Healthcare Innovation, and Patient-Centered Service to Support Healing and Quality of Life

Oklahoma City, Oklahoma May 11, 2026 ([IssueWire.com](https://www.IssueWire.com)) - Dana Lau, FNP-BC, is a dedicated Family Nurse Practitioner whose nursing career has been defined by compassion, perseverance, and a

deep commitment to serving others. Since beginning her healthcare journey in 2007, Dana has steadily advanced through multiple levels of nursing—from nursing aide to Licensed Practical Nurse, Registered Nurse, and ultimately Board-Certified Family Nurse Practitioner in 2019.

Her educational path reflects her dedication to lifelong learning and professional growth. Dana earned her LPN from West Watkins Vocational Technology Center, her Associate's Degree from Murray State College in Tishomingo, her Bachelor's Degree from Oklahoma City University, and her Master's Degree from Graceland University.

Throughout her career, Dana has built diverse clinical experience across multiple healthcare specialties, including correctional healthcare, chemotherapy and cancer care, nephrology, and wound management. She currently practices with Total Wound Care Oklahoma, a rapidly growing mobile wound care clinic that delivers specialized treatment directly to patients in their homes.

The organization now serves approximately 1,000 patients across six states, including Oklahoma, Kansas, Arkansas, Texas, Missouri, and Colorado. Dana's role involves providing advanced wound care services while helping patients receive treatment in familiar and comfortable environments that support both healing and accessibility.

Dana also holds wound care and ostomy certification through the National Alliance of Wound Care and Ostomy and is actively pursuing her American Board of Wound Management Wound Care Specialist certification to further expand her expertise in the field.

Known for her approachable and highly compassionate care style, Dana prioritizes building strong personal relationships with her patients. She believes healthcare should extend beyond scheduled appointments and strives to ensure patients always feel supported and cared for. Her commitment to accessibility includes personally providing patients with her direct phone number and remaining available after hours when needed.

Dana attributes her success to hard work, initiative, and a lifelong passion for caring for others. Guided by the principle of treating people the way she would want to be treated herself, she believes kindness, empathy, and personal connection remain at the center of meaningful healthcare.

Over the years, Dana has become known not only for her clinical skill, but also for her willingness to go above and beyond for her patients—whether that means traveling to see them, answering late-night questions, or simply taking time to listen and provide reassurance. She believes caring for people is not simply a profession, but a natural extension of who she is.

Adding a special personal dimension to her work, Dana's twin sister also serves as part of her clinical team as one of her nurses. Together, they help provide coordinated, compassionate care while supporting patients through complex wound healing and recovery processes.

Dana's dedication to healthcare, accessibility, and patient advocacy continues to make a meaningful impact on individuals and families throughout the communities she serves. Through mobile healthcare innovation, advanced wound care expertise, and genuine compassion, she remains committed to improving both patient outcomes and quality of life across multiple states.
