

Dillon Talia: A Great Personality of an Engineer and a Manager

Dillon Talia, from Spring Valley, California, graduated in 2017 with a Bachelor's in Electrical Engineering from the University of San Diego's Shiley-Marcos School of Engineering.

Spring Valley, California May 21, 2026 (IssueWire.com) - These days, people don't have a clear goal for their future. Some focus on the engineering sector, while others choose a different field, regardless of their interests. In fact, an engineer can also become a successful manager if they have learnt a few basic skills during their education. Yes, you heard right. See the inspiring journey of [Dillon](#)

[Talia](#). He is a proficient electrical engineer and a skilled manager at his own company.

Additional Insights About Him

Dillon has completed his degree in electrical engineering from the University of San Diego. He completed his education at Shiley-Marcos School of Engineering, gained basic knowledge, and achieved a high position among his batchmates during his graduation. He mastered theoretical and practical knowledge, including hands-on training in advanced technical skills. From Digital and FPGA design sessions to excelling in assembly language and C and C++, he is well-versed in many areas.

A Business Manager

Afterwards, he becomes a proficient manager at his own family-owned business, named Bi-Rite Market. He began his management journey in 2013 and didn't look back. He wants to help his family business reach heights no one has ever dreamed of.

When it comes to his management skills, no one can match the personality Dillon Talia has. He has unmatched entrepreneurial skills that helped him grow his business. He works closely with each employee at this place to help them overcome every issue with ease.

An Epitome of Managing Time and Making Decisions Quickly

Have you ever seen someone who manages time efficiently and makes quick decisions while running a business? If not, take a moment and look at the transformative journey of Dillon Talia. He is a trusted and reputable. He is a perfect combination of a victorious engineer and a capable manager.

He works hard to strengthen his engineering skills, decision-making, delegation, time management, and, of course, his adaptable nature. He never feels disappointed and never lets his team members think about such things. He always encourages his entire team and supports them in every situation, no matter how difficult it is.

Moreover, Dillon's time management skills keep all work productive and organized, ensuring each client's needs are fulfilled.
