

Don't Mess with Texas Picture Cars: New Platform Goes Live

USA Movie Cars has officially launched TexasPictureCars.com, delivering authentic, camera-ready vehicles and full production support across Austin, Dallas, Houston, San Antonio, and the entire Lone Star State.

Phoenix, Arizona May 7, 2026 ([Issuewire.com](https://www.issuewire.com)) - USA Movie Cars, a leading nationwide picture car rental and coordination service, today announced the official launch of TexasPictureCars.com, a powerful new platform dedicated to supporting the thriving film, television, commercial, and media production industry across the Lone Star State.

The new specialized platform delivers fast, reliable access to a massive fleet of authentic, camera-ready vehicles that embody the bold character of Texas. Whether productions need roaring muscle cars for high-speed action sequences in Houston, rugged pickup trucks and classic Western vehicles for ranch scenes in West Texas, sleek luxury exotics in Austin, police cruisers, heavy-duty rigs, or specialty vehicles — TexasPictureCars.com has productions covered from border to border.

“Texas is one of the hottest film markets in the country right now, and we’re proud to give productions the vehicles they deserve,” said Rob Rutledge, founder and Picture Car Coordinator of USA Movie Cars. “Don’t Mess with Texas Picture Cars is more than a slogan — it’s a promise. We’ve built a platform that makes sourcing vehicles bigger, easier, and more authentic so filmmakers can focus on creating great content.”

Key Features of TexasPictureCars.com:

- Extensive inventory of production-ready vehicles for urban, rural, desert, coastal, and highway filming
- Full statewide coverage including Austin, Dallas, Houston, San Antonio, Fort Worth, El Paso, and everywhere in between
- Complete professional coordination: sourcing, delivery, on-set support, modifications, and insurance assistance
- Free vehicle listing program for Texas car owners — list at no cost, earn competitive rental income, retain full ownership, and even appear as background talent

The platform uses a proven crowdsourced model that directly connects passionate local Texas vehicle owners with national and international productions. This delivers unique, character-rich vehicles that generic studio fleets cannot match while keeping film dollars circulating in local communities.

USA Movie Cars has supplied picture vehicles to major studios and streamers including Netflix, Apple TV+, Disney, Warner Bros., and Paramount. The launch of TexasPictureCars.com marks a major expansion, making professional picture car services more accessible and reliable across the entire state of Texas.
