

## Dr. Rachel Wilson Joins Kyle Veterinary Hospital, Bringing a Passion for Fear-Free Veterinary Care

**Cincinnati, Ohio May 28, 2026 ([IssueWire.com](https://www.issuewire.com))** - Kyle Veterinary Hospital, a trusted full-service veterinary hospital serving the Cincinnati community, is pleased to announce the addition of Dr. Rachel Wilson to its clinical team. Dr. Wilson has officially joined the practice and is now seeing patients at the hospital's location on Conrey Road.

A 2023 graduate of The Ohio State University College of Veterinary Medicine, Dr. Wilson brings a compassionate, patient-centered approach to veterinary medicine with special interests in behavior, fear-free veterinary care, feline medicine, and greyhound health. Her arrival further strengthens Kyle Veterinary Hospital's commitment to providing personalized, low-stress care for pets and their families throughout the greater Cincinnati area.

Originally from southeastern Ohio, Dr. Wilson earned her bachelor's degree from Otterbein University before pursuing her veterinary education at Ohio State. She recently relocated to Ohio from Charlotte, North Carolina, with her husband and their rescue mix dog, Watson, and is excited to become part of the local community while building lasting relationships with pet owners and their pets.

Dr. Wilson's clinical philosophy centers on creating a calm and supportive environment for animals during every visit. Her strong interest in fear-free practice reflects a growing emphasis in veterinary medicine on reducing stress and anxiety for pets during examinations and treatment. By focusing on positive experiences and individualized care, she aims to help pets feel more comfortable while strengthening communication and trust with owners.

In addition to her professional interests, Dr. Wilson enjoys spending time with her husband, especially traveling and cooking together. She also has a special affection for greyhounds, a breed she has long admired for their unique personalities and gentle nature.
