

## E03 Pro Floating RGB Bluetooth Speaker Launches on Kickstarter with IPX7 Waterproof Design and Immersive Sound

The E03 Pro combines floating waterproof performance, Bluetooth 5.4 connectivity, RGB lighting and portable stereo sound for pool parties, outdoor adventures and everyday entertainment.

**Los Angeles, California May 21, 2026 ([Issuewire.com](http://Issuewire.com))** - The E03 Pro Floating RGB Bluetooth Speaker is now live on Kickstarter, introducing a portable audio solution designed for outdoor entertainment, poolside relaxation and travel convenience. Built with IPX7 waterproof protection and a floating design, the E03 Pro is engineered to deliver music in environments where ordinary speakers fall

short.

The E03 Pro features Bluetooth 5.4 connectivity for stable wireless streaming and supports TWS stereo pairing for an expanded listening experience. Equipped with dual independent RGB lighting effects, the speaker adds a vibrant visual atmosphere to parties, camping trips, beach outings and nighttime gatherings.

Designed for durability and portability, the speaker includes a compact structure, USB Type-C charging, and a rechargeable battery capable of several hours of playback on a single charge. The floating waterproof construction allows users to enjoy music around pools, hot tubs, showers, beaches and outdoor activities without worrying about water exposure.

According to the creators, the goal behind the E03 Pro was to combine entertainment, convenience and modern design into one versatile Bluetooth speaker suitable for both indoor and outdoor lifestyles.

Key features of the E03 Pro include the following:

- IPX7 waterproof and floating design
- Bluetooth 5.4 wireless connectivity
- True Wireless Stereo (TWS) pairing support
- Dynamic RGB lighting effects
- Portable and lightweight construction
- USB Type-C charging
- Designed for pool, beach, camping and outdoor use

The Kickstarter campaign offers early supporters an opportunity to secure the E03 Pro before retail release while helping bring the project to a wider global audience.

The campaign is currently accepting backers on Kickstarter.
