

Empire State Productions Just Got Their Dream Fleet: NewYorkPictureCars.com Launches

USA Movie Cars has launched NewYorkPictureCars.com, delivering authentic, camera-ready vehicles and full professional coordination for film and TV productions across New York City, Upstate New York, and beyond.

Phoenix, Arizona May 10, 2026 ([Issuewire.com](https://www.issuewire.com)) - USA Movie Cars, a leading nationwide picture car rental and coordination service, today announced the official launch of NewYorkPictureCars.com, a specialized new platform dedicated to supporting the world's most dynamic film, television, commercial,

and media production market — New York.

The new platform delivers Empire State Productions their dream fleet with fast access to a diverse, authentic, and camera-ready collection of vehicles that capture the energy and character of New York. From iconic yellow taxis and sleek Manhattan luxury sedans to rugged upstate pickup trucks, vintage automobiles for period dramas, police cruisers, muscle cars for action sequences, emergency vehicles, and specialty rigs — NewYorkPictureCars.com provides the perfect wheels for every New York story.

“Empire State Productions just got their dream fleet,” said Rob Rutledge, founder and Picture Car Coordinator of USA Movie Cars. “New York is unmatched in its intensity, iconic locations, and logistical complexity. We built NewYorkPictureCars.com to give productions authentic, reliable vehicles with full professional coordination so they can focus on creating great content instead of chasing cars.”

Key Features of NewYorkPictureCars.com:

- Extensive inventory including taxis, luxury sedans, muscle cars, vintage vehicles, police cruisers, trucks, and specialty rigs
- Comprehensive coverage across New York City boroughs, Upstate New York, Long Island, Hudson Valley, and beyond
- Full professional coordination: sourcing, delivery, on-set support, modifications, and insurance assistance
- Free vehicle listing program for New York car owners — list at no cost, earn competitive rental income, retain full ownership, and potentially appear as background talent

The platform uses a proven crowdsourced model that connects local New York vehicle owners with national and international productions. This ensures greater authenticity on screen while supporting the local economy.

New York remains the undisputed capital of film and television, known for its unmatched energy, diverse locations, elite crews, and strong incentives. NewYorkPictureCars.com removes a major logistical barrier, making the Empire State even more efficient and attractive for productions of all sizes.

USA Movie Cars has supplied picture vehicles to major studios and streamers including Netflix, Apple TV+, Disney, Warner Bros., and Paramount. The launch of NewYorkPictureCars.com marks a significant milestone in the company’s nationwide expansion.
