

Integrity HealthOps Group Is Now Integrity Healthcare Solutions

The recent announcement came with refreshed logos and announcements made to clients. This is the second big update in the recent management initiatives.

Ahmedabad, Gujarat May 31, 2026 ([IssueWire.com](https://www.issuewire.com)) - Integrity HealthOps Group Is Now Integrity Healthcare Solutions

AMS is giving its enterprise brand a new name: **Integrity Healthcare Solutions**.

The decision is straightforward. As the organization grew, adding services across revenue cycle management, virtual staffing, and remote patient monitoring, the old name no longer told the full story. Over the years, the organization has built a reputation for reliability, precision, and partnership with an ethos that has remained constant even as its services expanded. Integrity Healthcare Solutions does a better job of that. It is clear and direct, and it immediately tells people who the company serves and what it serves.

Along with the new name comes a refreshed logo and updated brand materials across websites, social media, and client communications.

"This is not a reinvention. It is clarity," the company shared. **"Integrity Healthcare Solutions reflects where we are today and where we are headed."**

About Integrity Healthcare Solutions

Integrity Healthcare Solutions is the enterprise brand of AMS, a healthcare operations company with over 25 years of experience. Through its entities — MBS, IPS, Healthmote, and IHS India — the organization supports 850+ healthcare providers across the United States.

With 1,600+ professionals working across India, the U.S., the Philippines, and Peru, Integrity Healthcare Solutions delivers end-to-end support in medical billing, practice management, virtual staffing, and remote patient monitoring.
