

Kerolos LLC Opens NetGalley Access for "The Da Vinci Deception: How the Mary Magdalene Marriage myth shattered my life"

a Critical Forensic Memoir Set to Challenge Pop-Culture History.

Espanola, New Mexico May 25, 2026 (IssueWire.com) - Kerolos LLC, a proud member of the Independent Book Publishers Association (IBPA), is pleased to announce the opening of the NetGalley campaign for Dr. Kerolos Kamal Rezk's provocative new work, *The Da Vinci Deception: How the Mary Magdalene Marriage Myth Shattered My Life*. Advance Review Copies (ARCs) are now available for industry professionals and media influencers. This trade paperback release represents a significant new entry in the creative non-fiction market, merging investigative theology with a contemporary domestic tragedy.

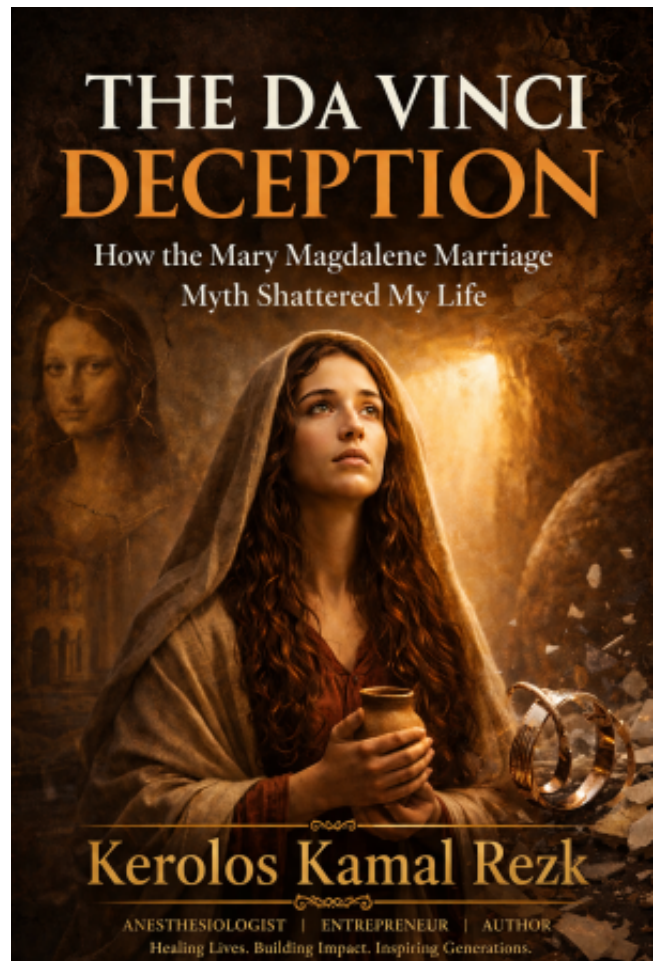

The manuscript, bearing ISBN 9798950466991, arrives at a time of renewed cultural interest in "post-truth" narratives. Dr. Rezk's work moves beyond standard apologetics to explore the sociological impact of the "Jesus marriage myth"—a narrative popularized by Dan Brown's *The Da Vinci Code* that Dr. Rezk argues has transcended fiction to become a "destructive cultural reality." The book traces the author's 2021 domestic crisis, providing a raw account of how his scholarly refusal to accept the marriage myth as historical fact led to the end of his marriage.

From an industry perspective, *The Da Vinci Deception* is strategically positioned as a "corrective narrative." Utilizing a rare Eastern Orthodox (Coptic) framework, Rezk deconstructs centuries of Western misinterpretations. The book features exhaustive research into the Gnostic gospels and medieval Provençal legends, while offering a forensic audit of the 20th-century forgeries that birthed the "bloodline" theory. Its global distribution via Amazon, IngramSpark, and Bookvault ensures its availability for libraries and retailers worldwide. with the International Arabic edition coming soon also.

Author Quote:

"This book was born from the realization that we can no longer treat historical truth as an abstract academic luxury," said Dr. Kerolos Kamal Rezk. "I have witnessed firsthand the power of a manufactured myth to corrode a real-life foundation. By opening this work to early reviewers on NetGalley, I hope to spark a necessary conversation about the ethical responsibility of storytellers and the enduring value of the authentic historical record."

Reviewers, librarians, and bookstore buyers can request the digital ARC on NetGalley or view the book's detailed metadata through the IBPA member directory. In addition to major retailers, Kerolos LLC is preparing for the imminent launch of [the official website](#), a direct-to-consumer website where readers can order the trade paperback and join a community dedicated to the "Redemption of Truth."
