

Kumar Printers Reaffirms - Leading B2B Packaging Manufacturer with a Complete Range of Premium Packaging Solutions

Kumar Printers Pvt. Ltd., a leading B2B packaging manufacturer in India, offers end-to-end packaging solutions with advanced technology, global certifications, and strong sustainability practices, serving top international brands.

Gurgaon, Haryana May 10, 2026 ([IssueWire.com](https://www.issuewire.com)) - From rigid box and folding carton to corrugated box and blister cards, Kumar Printers delivers end-to-end B2B packaging and printing solutions.

Kumar Printers Pvt. Ltd., a leading name in India's paperboard packaging industry, is highlighting its end-to-end B2B packaging and printing solutions built over 60+ years. Based in IMT Manesar with a second facility in Indore, the company serves domestic and global clients across formats like rigid boxes, folding cartons, corrugated boxes, blister cards, and inserts. With an annual conversion capacity of over 12,000 tons, Kumar Printers remains a preferred packaging partner for many top consumer brands worldwide.

A Complete B2B Packaging Solution Built for Scale

Kumar Printers is a full-service B2B packaging manufacturer operating across five key product lines. Its rigid box division offers premium packaging with finishes like hot foil stamping, embossing, UV coating, and soft-touch lamination. Folding cartons support high-volume pharmaceutical, FMCG, and garment brands, while corrugated boxes serve transit and secondary packaging needs across automobile, electronics, and consumer goods sectors. Blister cards cater to healthcare and personal care industries

with compliant, retail-ready solutions.

Backed by 60+ years of focus on quality, timely delivery, and sustainability, Kumar Printers works with global brands including Nestle, Gillette, Procter and Gamble, Duracell, Colgate, Volkswagen, Adidas, Jockey, Polo Ralph Lauren, Columbia, Sun Pharma, Dr Reddy's, Glenfiddich, Grants, Jim Beam, Teachers Scotch Whisky, Lotte, and Raybestos, demonstrating its ability to meet diverse industry standards.

Leadership Perspective

Our goal has never been just to print a box. It is to solve a packaging problem intelligently, whether that means a rigid box for a luxury whisky launch, a folding carton for a pharmaceutical brand running millions of units a month, or a corrugated box that protects an automobile component across the supply chain. We have built our infrastructure, our certifications, and our team around the idea that the right packaging creates real value for our clients and their customers.

~ Sandeep Bhargava, Managing Director, Kumar Printers Pvt. Ltd.

Premium Printing and Finishing at the Core

Kumar Printers stands out as a B2B packaging manufacturer through continuous investment in advanced printing and finishing technology. In 2022, it installed the **Heidelberg Speedmaster CX 104**, a seven-colour offset press with UV coating, the first of its kind in Northern India. This upgrade enables metallic inks, spot colours, soft-touch finishes, and high-definition printing at scale. Running at up to 15,000 sheets per hour, the press uses Prinect Image Control 4 for AI-assisted, real-time colour correction.

The company was also the first in India to implement ink formulation software and the second to adopt spectrophotometry for colour management, now an industry standard. Its production processes are driven by PFMEA, Statistical Process Control, Kaizen, and regular measurement system analysis, ensuring consistent quality across every run.

Certifications That Speak for Kumar Printers

Kumar Printers meets strict global compliance and traceability standards with certifications including ISO 9001:2015 (quality), ISO 14001:2015 (environment), and ISO 45001:2018 (health and safety). It also holds BRC IOP Grade 6, FSC Chain of Custody for responsible sourcing, GMI certification for colour consistency, and Sedex audit compliance for ethical practices.

These credentials make Kumar Printers one of the most comprehensively certified packaging manufacturers in North India and a preferred partner for multinational procurement teams.

What Clients Say

Kumar Printers has been our partner for decades. They have helped us with innovations in packaging to serve and delight our consumers. They have great work practices and operational excellence, which help us get reliable supplies. Their management team is always ready to support our packaging needs and is a pleasure to work with.

~ Anshat Singhal, Senior Purchase Manager, Procter and Gamble India

Sustainability as a Business Commitment

Sustainability is built into Kumar Printers' operations. The company has maintained zero water discharge since 2012, supported by 100% water recycling since 2008. It is solid waste recycling positive and disposes of industrial waste only through state-appointed authorities. Vegetable oil-based inks are widely used, and high recycled content paper is offered as a standard option. With FSC certification, Kumar Printers also provides full chain-of-custody traceability for responsibly sourced packaging.

Serving India and Global Markets

Kumar Printers exports packaging to clients in the UK, USA, UAE, and Saudi Arabia and is expanding its global presence. As a regional partner of the Global Packaging Alliance, spanning eight countries including Brazil, Mexico, USA, China, and Korea, the company brings internationally aligned standards to its India operations. Businesses seeking a reliable, certified B2B packaging manufacturer in India can connect directly to discuss requirements across all five product lines.
