

MAHAPOSH Launches Two Landmark Features to Transform POSH Compliance for MSMEs Across India

Introducing a smarter, tech-driven approach to POSH compliance with verified trainer onboarding and intelligent trainer discovery for MSMEs

Pune, Maharashtra May 5, 2026 ([IssueWire.com](https://www.issuewire.com)) - "Trainer Near Me" and "Onboard a Trainer" — two upcoming features set to make certified POSH compliance accessible, local, and scalable for businesses of all sizes.

[MAHAPOSH](#), a POSH compliance platform owned by the founders of [SheWork](#), is set to launch two transformative features designed to bridge the gap between certified POSH trainers and MSMEs seeking compliance support. The upcoming "Trainer Near Me" and "Onboard a Trainer" features will soon go live on the MAHAPOSH platform at mahaposh.ai.

"POSH compliance should not be a privilege for large corporations. Every working woman deserves a safe workplace, and every MSME deserves access to quality POSH training support right in their own city. These two features are a step toward making that a reality."— Tejas Kulkarni, Founder, MAHAPOSH

Feature 1: Trainer Near Me — Local Compliance Support at Your Fingertips

The "Trainer Near Me" feature enables MSMEs to discover and instantly book certified POSH trainers located in their own city directly through the MAHAPOSH platform. This eliminates the traditional barriers of distance, referrals, and uncertainty that small businesses have long faced when seeking compliance support.

Key benefits for MSMEs:

Search and book POSH trainers available in their specific city or region

Access verified trainer profiles, credentials, and areas of expertise

Streamline compliance scheduling without vendor sourcing or cold outreach

Reduce costs associated with outstation travel for training engagements

Ensure culturally and regionally relevant training delivery

Feature 2: Onboard a Trainer — Empowering POSH Professionals Nationwide

Alongside the discovery feature, MAHAPOSH will launch a dedicated Trainer Portal that will allow POSH trainers from across India — irrespective of city or region — to register, create their professional profile, and begin receiving bookings from MSMEs in their area.

Trainer registration is already open at: mahaposh.ai/trainer-portal/register

Key benefits for trainers:

Get listed on India's dedicated POSH compliance platform with national visibility

Receive booking requests from verified MSMEs without marketing effort

Build and showcase a professional profile including qualifications and experience

Trainers from any city across India are eligible to register and participate

Expand client base and contribute meaningfully to workplace safety in India

About MAHAPOSH

MAHAPOSH is a Pune-based e-commerce platform offering end-to-end POSH (Prevention of Sexual Harassment) compliance solutions for businesses across India. From ICC formation support and policy drafting to POSH training, investigations, and trainer discovery, MAHAPOSH makes compliance accessible, affordable, and impactful — for MSMEs, startups, and enterprises alike. With MAHAPOSH, compliance is not a checkbox; it is a culture.
