

Michael Galibov, D.O.: Advancing Rehabilitation Medicine Through Compassionate, Patient-Centered Care

Board-Certified PM&R Physician Combines Clinical Excellence, Medical Education, and Innovative Rehabilitation Strategies to Improve Quality of Life

Surprise, Arizona May 14, 2026 ([IssueWire.com](https://www.issuewire.com)) - Michael Galibov, D.O., is a board-certified physician in Physical Medicine and Rehabilitation (PM&R) whose work continues to make a meaningful impact on patients recovering from neurologic, musculoskeletal, and functional impairments. Based in Surprise, Dr. Galibov currently serves as Medical Director at PAM Rehabilitation Hospital while also

practicing under EMG Guidance PLLC with GOLD PM&R Arizona Division, where he focuses on advanced neuromusculoskeletal care, rehabilitation-focused treatment plans, and electrodiagnostic medicine.

Dedicated to helping patients regain strength, independence, and confidence, Dr. Galibov approaches rehabilitation medicine with both clinical precision and compassion. His philosophy centers on empowering patients to actively participate in their recovery process while providing the guidance and encouragement needed to help them progress toward improved function and quality of life.

“I try to smile a lot, and it’s been a joy figuring out the puzzle pieces needed so that my patients do too,” Dr. Galibov shared. “A true caregiver emphasizes activity so patients may input their own agency to get themselves stronger. I get to be their cheerleader and their physician—just be there for them.”

Dr. Galibov earned his Doctor of Osteopathic Medicine Degree from Midwestern University, Arizona College of Osteopathic Medicine, following dual undergraduate degrees in Biological Sciences and Global Health from Arizona State University Barrett, The Honors College. He completed his Transitional Year Internship at Clarion Hospital Residency Program before pursuing specialized residency training in Physical Medicine and Rehabilitation at Hackensack Meridian JFK Johnson Rehabilitation Hospital in Edison, where he also served as Academic Chief Resident.

Throughout his training and professional career, Dr. Galibov has demonstrated a strong commitment to medical education and mentorship. He has served as a Medical Student Preceptor across multiple institutions and has led board review programming for PM&R residents. His passion for teaching has also included roles as an Anatomy Teaching Assistant and Lead Instructor, experiences that helped cultivate the educational leadership skills for which he later earned recognition as Resident Teacher of the Year.

In addition to his clinical work, Dr. Galibov maintains an extensive background in academic research and scholarly activity. He has contributed to peer-reviewed publications, authored book chapters, and delivered presentations at national conferences focused on rehabilitation medicine, sports medicine, and functional recovery. His research interests include neurologic rehabilitation, musculoskeletal disorders, pain management, and innovative treatment approaches that improve long-term patient outcomes.

Outside of the clinic and hospital setting, Dr. Galibov remains actively involved in volunteerism and community outreach efforts, including adaptive sports initiatives and sports medicine coverage for athletic events. Fluent in Russian and conversational in Spanish, he values communication, cultural understanding, and accessibility in patient care.

Through his combination of clinical expertise, educational leadership, research involvement, and patient advocacy, Dr. Michael Galibov continues to advance the field of rehabilitation medicine while helping patients build strength, regain independence, and improve their overall quality of life.
