

NCLOUD3 and Finvesteclab Partner to Deliver AI-Powered Quantitative Investment Platform on AWS

The strategic partnership combines Finvesteclab's academically validated machine learning models with NCLOUD3's AWS and Generative AI expertise to create a scalable platform for institutional investment intelligence.

Dubai, United Arab Emirates May 18, 2026 ([IssueWire.com](https://www.issuewire.com)) - NCLOUD3 Information Technology LLC, an Amazon Web Services (AWS) GenAI Consulting Partner, and Finvesteclab, a quantitative finance intelligence company, today announced a strategic technology partnership. Together, the two organisations will deliver an enterprise-grade, AI-powered quantitative investment platform built entirely on AWS — combining Finvesteclab's academically validated machine-learning models with NCLOUD3's deep cloud engineering and AI deployment expertise.

The solution provides the flexibility and computational scalability required for modern quantitative finance workloads, including machine learning model training, large-scale data processing, portfolio analytics, and AI-driven investment research.

Anwar Musa, COO, NCLOUD3: “With this latest partnership, NCLOUD3 proves again that its ability to deploy AI with a business-first approach is a unique differentiator in the marketplace. The capabilities offered by AWS in the areas of data modelling and Generative AI are best-in-class in the industry. By taking advantage of these latest technology trends, Finvesteclab will provide a breakthrough AI-powered solution that will disrupt the rules of the game across the investor community”.

Mohamed Fteha, Founder & Chief Strategy Officer, Finvesteclab: “At Finvesteclab, our focus is on transforming institutional investment strategies through an end-to-end integrated platform based on academically grounded machine learning models and advanced quantitative research, to identify and deliver alpha returns. Partnering with NLOUD3 has enabled us to build a highly scalable and future-ready platform entirely on AWS, giving us the agility, security, and performance required to serve sophisticated institutional clients globally.”

About NLOUD3 (www.ncloud3.com):

NLOUD3 Information Technology LLC is a cloud consulting and managed services company specializing in AWS cloud migration, modernization, data analytics, security, and Generative AI solutions.
