

## Optima Fence and Deck: Elevating Outdoor Living in the Pacific Northwest

Optima Fence and Deck, a family-owned contractor serving Mercer Island, Bellevue, and Greater Seattle, has built a reputation for delivering exceptional craftsmanship that turns homeowner visions into reality

**Mercer Island, Washington May 17, 2026 ([IssueWire.com](http://IssueWire.com))** - When it comes to enhancing your home's outdoor space, the right fence or deck can transform not just your property's appearance, but how you experience your home every day. Optima Fence and Deck, a family-owned contractor serving

Mercer Island, Bellevue, and Greater Seattle, has built a reputation for delivering exceptional craftsmanship that turns homeowner visions into reality.

### A Company Built on Quality and Trust

For over five years, Optima Fence and Deck has focused on doing things differently. The company was founded after recognizing a common frustration among homeowners: materials from big-box stores don't hold up, contractors cut corners, and finished projects often fall short of what homeowners envisioned.

Optima's solution is refreshingly simple. They source premium materials exclusively from trusted specialty vendors, avoiding mass-produced options that compromise quality. Every project is thoughtfully designed to be safe, durable, and tailored to complement each home's unique character. With licensing, background-checked employees, and verification through platforms like Thumbtack, they have earned "Top Pro" status and been hired over 200 times.

### Comprehensive Fencing Solutions

Optima offers an impressive range of fencing options, each designed to meet different aesthetic preferences and functional needs.

#### Estate Fences

For homeowners seeking refined privacy, [Optima fence and Deck](#) combine classic elegance with modern durability. These wood privacy fences feature tight-fit vertical cedar boards with flat top caps and fascia trim, creating a crisp, rectangular profile that suits both modern and traditional architecture.

The company uses only #1 Grade cedar or premium Clear Grade options, with posts available in wood, treated, or steel configurations. Steel posts provide unmatched support and longevity, especially for challenging or uneven terrain. Installation typically takes just 1-3 days, and Optima handles permits, HOA reviews, and inspections for a stress-free experience.

#### Horizontal Wood Fences

For homeowners wanting contemporary curb appeal, Optima's horizontal wood fences offer clean, side-to-side board placement that visually widens yards while providing exceptional privacy. This style handles sloped yards particularly well, stepping smoothly with the terrain while maintaining consistent gaps. With proper maintenance, these fences can last 15-25 years, making them a smart long-term investment.

#### ColorMax Steel Fences

Innovation meets durability with Optima's ColorMax steel fencing system. Made from advanced Colorbond steel with five-layer protection, these fences are fire-resistant, termite-proof, and rust-resistant. Unlike wood fences that require staining every few years at \$15-20 per foot, ColorMax needs nothing more than an occasional rinse.

These fences offer a clean, symmetrical profile on both sides, respecting both you and your neighbors. They come with a 10-year manufacturer warranty on the paint finish and Optima's 4-year workmanship warranty. For homeowners concerned about wildfire risk or wanting truly zero-maintenance solutions, ColorMax represents the gold standard in modern fencing.

#### Deck Services: Creating Outdoor Living Spaces

Optima's expertise extends equally to deck construction, specializing in both classic cedar and low-maintenance composite materials from trusted brands like Trex, TimberTech, Fiberon, and Wolf.

## Composite Decks

Composite decking has revolutionized outdoor living, and Optima is at the forefront of this trend. These decks resist fading, warping, and splintering while requiring none of the yearly sanding or staining that wood demands. Most composite deck installations take just 3-5 days, with typical projects in Bellevue ranging from

20

,

000

t

o

20,000 to 40,000 depending on size, materials, and upgrades like aluminum railings, built-in benches, or integrated lighting.

## Cedar Decks

For homeowners who love the natural warmth and beauty of real wood, Optima builds stunning cedar decks that offer timeless appeal. The company handles everything from initial design and permitting to final inspection, with all work backed by their 4-year workmanship warranty.

## A Transparent, Client-Focused Process

What truly sets Optima apart is their four-step installation process, designed to eliminate surprises and build confidence.

**Step 1: Free Consultation** – An in-person meeting where they discuss your vision and provide a detailed estimate within 72 hours.

**Step 2: Custom Design** – A tailored plan with transparent cost breakdowns and material selection guidance.

**Step 3: Expert Installation** – Skilled crews handle everything from demolition to finishing, keeping you updated throughout.

**Step 4: Final Walkthrough** – A thorough review of the completed work, site cleanup, and delivery of warranty documents.

Even after completion, Optima follows up weeks later to ensure everything is holding up perfectly.

## What Customers Are Saying

With a 5.0 rating across nearly 100 reviews, Optima has earned exceptional feedback for professionalism, work quality, and responsiveness. Customers consistently praise their attention to detail, clear communication, and ability to bring complex visions to life—like one client whose crew creatively "framed the trees" into the fence line.

## The Bottom Line

For homeowners throughout the Seattle Eastside, Optima Fence and Deck delivers an unbeatable combination of premium materials, expert craftsmanship, transparent pricing, and genuine customer care. Whether you need a privacy fence, a modern composite deck, or a complete outdoor transformation, Optima builds quality that truly lasts.
