

## Propa Music & Arts Publishing Unveils Groundbreaking AI-Driven Cinematic Music Video “Wishing Well”

**Baton Rouge, Louisiana May 5, 2026 ([IssueWire.com](http://IssueWire.com))** - Independent recording artist Nune Aka Mr. Propane has released the official music video for “Wishing Well,” a track from the album “Vivid Pictures Chapter 1.” The song features Keith Wallace and accompanies a visual release developed using artificial intelligence tools.

The “Wishing Well” music video follows a narrative-driven format that departs from traditional performance-based music videos. The visual presentation is structured as a short cinematic sequence designed to support the themes of the song through visual immersive storytelling.

“It’s more than a video; it’s a story presented through visuals and music,” said Nune Aka Mr. Propane. “The goal was to create a viewing experience that aligns with the song’s message but have the feel of watching a blockbuster Hollywood short film.”

A Standout Record from a Milestone Project

“Wishing Well” appears on “Vivid Pictures Chapter 1,” an album that received a 2026 Southern Plug Awards nomination for Best Album. The project has surpassed one million streams across digital platforms.

The album includes contributions from artists such as Jadakiss, Gucci Mane, and K-Rino, along with other collaborators. The streaming milestone reflects continued engagement with independently

released projects.

### Innovating Beyond Music: Release Ready Platform

In addition to the music video release, Nune Aka Mr. Propane, CEO and Owner of Propa Music & Arts Publishing, announced the launch of Release Ready, a web-based platform developed to support independent artist releases.

Release Ready converts an album cover into a centralized landing page designed to present release information, visuals, and links in a single format for media and audience access.

The official “Wishing Well” music video is available on major video and streaming platforms.
