comprehensive surgical training with a patient-centered philosophy to provide modern, high-quality dental care rooted in precision, functionality, and aesthetics.

Dr. Reyes earned his Doctor of Medicine in Dentistry Degree from the University of Puerto Rico School of Dentistry in 2009. Following graduation, he completed a Fellowship in Oral and Maxillofacial Surgery at Lincoln Hospital in the Bronx, New York, where he gained extensive surgical experience managing complex oral procedures and facial conditions. He later completed a two-year General Practice Residency at Montefiore Hospital, serving as Chief Resident during his second year.

With extensive hands-on clinical and surgical training, Dr. Reyes is committed to keeping complex dental procedures in-house whenever possible, allowing patients to receive comprehensive care within a familiar and trusted environment. His surgical focus includes complex extractions, ridge preservation with bone grafting, implant placement, and full-mouth rehabilitation. In addition to advanced surgical care, he also provides cosmetic and restorative dentistry, crowns and bridges, implant rehabilitation, oral sedation, and neuromodulator treatments.

Dr. Reyes approaches dentistry as both a science and an art form, blending technical precision with aesthetic vision to create outcomes that are functional, natural-looking, and highly personalized. He remains deeply committed to continuing education and integrating emerging technologies into his practice, including digital implant workflows and modern evidence-based surgical techniques that support predictable, long-term results.

What Dr. Reyes finds most fulfilling about dentistry is the ability to create tangible, life-changing impact for his patients. He believes restoring oral health often goes far beyond relieving pain or repairing teeth—it can restore confidence, comfort, self-esteem, and overall quality of life.

For Dr. Reyes, the combination of surgical planning and smile design is what makes dentistry especially meaningful. He believes excellence in dentistry requires continual growth, adaptability, and a willingness to remain at the forefront of technological and clinical advancements.

At the core of his practice philosophy is trust. Dr. Reyes prioritizes honesty, empathy, patient education, and transparent communication in every aspect of care. He believes patients deserve to feel informed, comfortable, and understood throughout their treatment experience, allowing strong relationships and trust to develop naturally over time.

Beyond his clinical practice, Dr. Reyes remains deeply committed to humanitarian service and community outreach. He has participated in dental missions and outreach work in Peru and Tanzania, helping provide care to underserved populations with limited access to dental services. Those experiences further reinforced his belief that professional skill and compassionate service should always go hand in hand.

Known for his integrity, compassion, and attention to detail, Dr. Reyes continues helping patients restore not only their oral health but also their confidence and overall well-being through comprehensive, modern dental care.

Outside of dentistry, Dr. Reyes enjoys spending time with his two daughters, exploring nature, and pursuing artistic interests that complement the creativity and precision central to his professional work.
