

Saudi Film Permit Launches On-Demand Crew Hire Service - Bookable by the Hour

Saudi Film Permit offers instant hourly booking for pro videographers, photographers & drone operators across 6 Saudi cities. Transparent pricing, no hidden fees.

Saudi Film Permit Launches

On-Demand Crew Hire Service

Book Professional Videographers, Photographers & Drone Operators Anywhere in Saudi Arabia

Ar-Riyad, Saudi Arabia May 26, 2026 ([Issuewire.com](https://www.issuewire.com)) - Saudi Film Permit, the Kingdom's leading filming and photography permit specialist, has expanded its services with a new on-demand crew hire platform. Businesses, agencies, and production teams across Saudi Arabia can now book professional videographers, photographers, and drone operators on a simple hourly or day rate - with instant confirmation.

A Single Source for Permits and Professional Crew

For years, productions in Saudi Arabia have faced a familiar problem. Getting the permit done is one challenge. Finding a reliable, vetted crew on short notice is another. The Saudi Film Permit has solved both.

We now coordinate the entire production workflow - from obtaining official filming permits with government authorities and private site owners, to putting a professional crew on location the same day you need them.

"We know how much time production teams lose sourcing crew independently," said a spokesperson for Saudi Film Permit. "Our crew hire service removes that friction entirely. You book, you confirm, your crew shows up ready to work."

What the Service Covers

Our crew hire platform is built for corporate teams, marketing agencies, real estate developers, construction firms, and event organisers who need professional visual content without the overhead of a full production contract.

Available services include:

- **Videographers** - Corporate events, conferences, product launches, and commercial shoots
- **Photographers** - Executive portraits, product photography, construction progress, factory and interior shoots
- **Drone Operators** - Aerial and drone footage, subject to local regulations
- **Editors** - Post-production and video editing support

All crew members are vetted, experienced professionals. The platform currently features talent with 4 to 12+ years of active industry experience, including specialists in cinematic production, podcast filming, AI animation, and construction documentation.

Six Cities. Instant Booking. Transparent Pricing.

The service is live across six cities in Saudi Arabia: Riyadh, Jeddah, Dammam, Al Khobar, Jubail, and Medinah.

Bookings take minutes. Clients select their city, choose a duration (2-hour, 4-hour, 8-hour, or full day), pick a payment method, and receive instant confirmation. Payment options include credit and debit cards, bank transfer, digital wallet, and Invoice/Net 30 for contract bookings.

There are no hidden charges. All pricing is shared upfront before the booking is confirmed.

For ongoing production needs, contract packages are available with a dedicated crew, priority scheduling, consistent visual style, and cost efficiency built in for multi-day or recurring shoots. This option is recommended for real estate developers, corporate marketing teams, and agencies with regular content requirements.

About Saudi Film Permit

Saudi Film Permit is Saudi Arabia's trusted partner for filming and photography permit applications. We coordinate directly with relevant government authorities and private site owners to obtain official permits for shoots across the entire Kingdom.

Our expanded crew hire service now gives clients end-to-end production support - permits handled, professional crew booked, and projects moving forward without delay.
