

Sign Made Easy Named Among Top Digital Signature Software Solutions in Software Suggest Leaders Matrix

The Salesforce-native esignature solution Sign Made Easy earns industry recognition for delivering seamless, secure, and efficient document workflows for modern businesses.

Thornhill, Ontario May 19, 2026 ([Issuewire.com](https://www.issuewire.com)) - The Salesforce-native esignature solution Sign Made Easy earns industry recognition for delivering seamless, secure, and efficient document workflows for modern businesses.

Sign Made Easy, a leading Salesforce-native esignature solution by HIC Global Solutions, has been recognized among the “**Top Digital Signature Software’s in Leaders Matrix**” by Software Suggest, a trusted software recommendation and review platform.

The recognition highlights Sign Made Easy’s growing impact in simplifying digital signature workflows for businesses seeking secure, scalable, and fully integrated document signing experiences within Salesforce. The Software Suggest Leaders Matrix evaluates software solutions based on customer satisfaction, usability, market presence, and overall business value.

As organizations continue accelerating AI digital transformation initiatives, businesses are increasingly looking for solutions that eliminate manual paperwork, streamline approvals, and improve operational efficiency without disrupting existing workflows.

Sign Made Easy addresses these challenges by enabling users to send, sign, track, and manage documents directly within Salesforce, helping teams reduce turnaround times and improve collaboration across departments.

Built to support modern enterprise requirements, Sign Made Easy offers features such as automated document workflows, real-time signature tracking, secure signing experiences, customizable templates, and seamless Salesforce integration.

The platform is designed to help sales, legal, healthcare, finance, and operations teams accelerate document processes while maintaining security and compliance standards.

“This recognition reflects our commitment to helping businesses simplify and modernize their document signing workflows directly within Salesforce,” said Mr Piyush Singhal, CEO of HIC Global Solutions. “As organizations continue prioritizing automation and operational efficiency, we remain focused on delivering secure, scalable, and user-friendly esignature experiences that support business growth.”

The recognition further strengthens Sign Made Easy’s position within the Salesforce ecosystem as organizations continue adopting integrated solutions that enhance productivity and reduce operational bottlenecks.

By combining workflow automation with secure digital signing capabilities, Sign Made Easy continues to empower businesses to manage agreements faster and more efficiently.

Moving forward, Sign Made Easy aims to expand its intelligent workflow capabilities with enhanced automation, improved user experiences, and deeper enterprise workflow integrations to support evolving business needs across industries.

About Sign Made Easy

Sign Made Easy is a Salesforce esignature solution designed to help businesses automate and streamline document signing workflows directly within Salesforce.
