

## Silver Sky Imports Rebrands as Soundtopia

**Lincoln, Nebraska May 17, 2026** ([IssueWire.com](https://www.issuewire.com)) - Silver Sky Imports has officially changed its name to Soundtopia, marking a new chapter for the company that has spent years serving the sound therapy and wellness community with singing bowls, gongs, tuning forks, and meditation instruments.

The new name reflects the experience at the heart of every product the company sells: an immersive space where sound creates calm, focus, and connection. Soundtopia will continue to offer the same product quality, customer service, and curated selection that customers came to know under the Silver Sky Imports name.

"Soundtopia captures where the brand has been heading for a long time," said Jeff [Last Name], owner of Soundtopia. "Our customers aren't just buying instruments. They're building practices, leading sessions, and creating spaces where people come to feel something real. The new name honors that."

Soundtopia serves a broad community that includes individuals, wellness practitioners, meditation teachers, yoga studios, sound bath facilitators, and certified sound therapists. Product lines include Himalayan and crystal singing bowls, gongs, handpans, tuning forks, chimes, and a growing catalog of percussion and meditation tools.

The rebrand does not affect existing orders, accounts, or customer support. Current customer information, wholesale accounts, and affiliate partnerships transfer seamlessly to Soundtopia, and the company's new website is now live at <https://www.soundtopia.com>.

**About Soundtopia** Soundtopia, formerly known as Silver Sky Imports, is an online retailer of professional-grade sound therapy and wellness instruments. The company supports individuals and practitioners using sound for relaxation, meditation, mindfulness, yoga, and professional sound therapy practice.
