Established in 2017, Zest n Zing Foods supplies premium spices, masalas, and dehydrated products to 15+ countries with ISO, USFDA, HALAL, GMP, ZED, FSSAI, APEDA and MSME certifications.

**Ahmedabad, Gujarat May 30, 2026 ([IssueWire.com](https://www.issuewire.com)) - Zest n Zing Foods Elevates Global Culinary Standards with State-of-the-Art Spice Processing and Certified Private Labeling Solutions**

*Ahmedabad-based industry leader showcases its premium range of whole spices, ground masalas, and dehydrated vegetables at Gulfood and AAHAR, strengthening its global footprint across 15+ countries.*

As global demand for authentic, safe, and premium-quality ingredients continues to soar, [Zest n Zing Foods](#), a brand managed by parent firm K Sheetal, is solidifying its position as a premier spice manufacturer and exporter from India. Established in 2017, the company operates a state-of-the-art processing facility in Ahmedabad, Gujarat, bridging the gap between local Indian farms and international markets.

According to the official [About Zest n Zing Foods](#) company profile, the organization has dedicated itself to delivering the pure, unadulterated flavors of Indian agriculture to B2B clients worldwide. By employing advanced processing technologies—including steam sterilization, ethylene oxide (ETO) treatment, and cryogenic grinding to preserve volatile oils and natural aromas—the company has expanded its supply footprint to more than 15 countries.

At the core of its product portfolio is an extensive selection of sourcing-verified, export-quality whole spices (such as dry red chili, cumin seeds, coriander seeds, cloves, and cardamom) alongside customized premium ground spices and blended masalas. These products are carefully processed to cater to retail brands, hospitality providers (HoReCa), and large-scale food manufacturers globally.

Beyond traditional spices, the company is a leading manufacturer of premium dehydrated onion products and dehydrated garlic flakes and powder, which are highly sought after by soup, sauce, and packaged food manufacturers. Responding to modern consumer preferences for healthy eating, the company has also expanded into clean-label snacking with its own lines of nutrient-rich roasted makhana (fox nuts).

To facilitate seamless international trade and build unmatched trust with B2B buyers, the company operates out of a [USFDA, ISO 9001:2015, GMP, HALAL, and HACCP certified](#) manufacturing plant. These certifications guarantee absolute physical, chemical, and microbiological compliance with strict international food safety standards, including regulations set by the Spices Board of India and APEDA.

A major driver of the company's growth is its comprehensive, end-to-end B2B Private Labeling Services. Zest n Zing Foods offers flexible contract packaging, custom spice formulation, and branding solutions tailored specifically for startups and emerging entrepreneurs who require low minimum order quantities (MOQs), as well as established multinational brands seeking high-capacity manufacturing.

“Our participation in prestigious global trade exhibitions such as Gulfood in Dubai and AAHAR in New

Delhi has allowed us to connect directly with international buyers who refuse to compromise on quality,” said a representative of K Sheetal and Zest n Zing Foods. “Our focus on advanced machinery and food safety certifications guarantees that every batch we export is zero-defect and fully traceable.”

Importers, distributors, and retail brands looking to source high-quality ingredients or establish a private-label product line are encouraged to contact Zest n Zing Foods directly to explore partnership opportunities.
