**Adamsville, Tennessee Jun 16, 2026 (IssueWire.com) - [Marty Tilley](#)**, an accomplished author and dedicated believer, invites readers to join her on a powerful spiritual journey in her debut book, [Grasping for Spiritual Sight](#). Drawing from a series of vivid, prophetic dreams, Tilley shares a personal and transformative account of how God speaks through dreams, guiding and preparing believers for the challenges of life.

For years, Tilley was haunted by dreams so intense they left her shaken, particularly one involving chaos surrounding the Statue of Liberty. When she sought guidance from a professor, his cryptic advice to “stay out of New York” revealed that what she needed was not human wisdom but the divine guidance of the Great Physician. These surreal and at times disturbing dreams, featuring flying cows, leviathans, and giants, were not meant to scare but to prepare Tilley for what lay ahead.

In [Grasping for Spiritual Sight](#), Tilley decodes these dreams, revealing the deeper message behind each symbol and how they relate to both her personal journey and the greater spiritual battle at play. Through this two-year journal, Tilley finds clarity and strength in her faith, ultimately leading her to the understanding that God has been speaking to her all along through dreams, visions, and moments of divine revelation.

“I discovered that God never stopped speaking, we just stopped listening,” Tilley shares in her inspiration statement. “Through dreams, illness, spiritual warfare, and miraculous foreshadowing, I learned that the Divine still visits us in the night, whispering, warning, and guiding those willing to pick up a pen and pay attention.”

*Grasping for Spiritual Sight* is not only a memoir of faith but a powerful invitation to readers to recognize the spiritual language of dreams. Tilley urges readers to open their eyes to what God is already showing them, reinforcing the clear message: you are not walking this path alone. The battle belongs to God, and He has been speaking all along.
