

Brandi L. Butler, FNP: Board-Certified Family Nurse Practitioner Dedicated to Pediatric and Community Care

Heart of Florida Health Center Clinician and Nonprofit Founder Expands Access to Care for Low-Income Families and Infertility Patients

Villas, Florida Jun 30, 2026 ([IssueWire.com](https://www.IssueWire.com)) - Brandi L. Butler, FNP, is a Board-Certified Family Nurse Practitioner with 11 years of nursing experience and a clinical focus in pediatrics. She currently practices at Heart of Florida Health Center in The Villages, a nonprofit organization with seven locations dedicated to serving low-income and uninsured patients across Central Florida.

From an early age, Brandi knew she wanted to pursue a career in nursing. That lifelong passion has shaped her professional path and sustained her commitment to delivering compassionate, patient-centered care to underserved communities.

Brandi began her nursing education at Beville State in Alabama, earning her Associate's Degree in Nursing in 2015. She continued her academic advancement with a Bachelor of Science in Nursing from the University of Alabama in 2018, followed by a Master's in Healthcare Administration in 2020. She later earned her Master of Science in Nursing as a Family Nurse Practitioner from South University in 2023. During her graduate studies, she also served on the faculty at the College of Central Florida, where she taught in the RN program and mentored future nurses. She maintains current BLS, ACLS, and PALS certifications and is an active member of the American Association of Nurse Practitioners (AANP).

In addition to her clinical responsibilities, Brandi is the CEO and Founder of Scarlett's Babies, a nonprofit organization established in 2023. The organization is dedicated to supporting families experiencing infertility by covering the full cost of treatment journeys, including medications. Through this initiative, she extends her commitment to healthcare access beyond clinical settings, addressing emotional and financial barriers faced by families seeking to build a future.

At Heart of Florida Health Center, Brandi plays a vital role in providing care to vulnerable populations, aligning her work with the organization's mission to deliver accessible, high-quality healthcare to underserved individuals and families. Her pediatric focus allows her to support children and families through preventative care, treatment, and ongoing health management.

Brandi attributes her personal and professional success to first and foremost my faith in God, whose guidance, strength, and grace have provided me with the wisdom and perseverance needed throughout my career. My commitment to serving others with compassion, integrity, and excellence has allowed me to build meaningful relationships with patients and colleagues alike. Outside of her professional commitments, she is a devoted mother of seven children and values time spent with her family as her greatest source of inspiration and balance.

Through her work in clinical care, education, and nonprofit leadership, Brandi L. Butler continues to demonstrate a deep commitment to improving health outcomes and expanding access to care for those who need it most.
