

# Carmon Green Offers Answer to Unhealed Trauma with New Literary Creation, ‘What In “Hell” Does God Want’

**ABOUT THE AUTHOR**

My name is Carmon Green. I proudly identify as a Black woman, a devoted follower of Christ, and a dedicated wife. My greatest joys stem from nurturing my two biological adult sons, cherishing my beautiful stepdaughter, and guiding my two intelligent stepsons through their formative years.

Raised in Philadelphia, Pa., by a resilient single mother alongside three siblings, my early years were marked by humble beginnings and formidable challenges. Seeking solace, I found refuge and purpose within my community church, where I was called to serve as an ordained deaconess for a decade, offering spiritual support to those in need. Guided by faith, I embarked on a 25-year journey in law enforcement, answering God's call to serve and protect. Later in life, I pursued higher education, delving into the realms of psychology and criminal justice, culminating in the attainment of a bachelor's degree in science. My background and experiences have given me a taste of the good, bad, and unstable aspects of society.

I have encountered numerous forks on the road, made friends for life, and encountered unfavorable people on my travels. Nevertheless, I value and treasure them all, for they are a part of errors, but they've all taught me something: the blueprint of my growth. To you, my newfound friend, I extend my heartfelt gratitude for choosing to share in the laughter, smiles, and tears of my creative journey. Your unwavering support means the world to me.

**REMEMBER THIS**

We all weave through life with events that test our emotional and mental resilience. Even though we might not have chosen the difficulties we encounter, the healing process is uniquely ours. We frequently internalize our suffering, letting it fester and contaminate our entire existence. But facing our inner selves and making the painful but necessary journey toward genuine healing is where true power resides. May we embrace the essence of 'Self' and aspire to greatness with purposeful intent. May God's blessings guide and sustain us on our journey.

Warm regards,  
Carmon Green

WHAT IN "HELL" DOES GOD WANT

SEEKING THE ANSWER IN DARKNESS

**Atlanta, Georgia Jun 4, 2026 (IssueWire.com)** - Authors are able to depict the deep and unaddressed humane emotions through their literary works, and Carmon Green can be considered one of the leading ones. The author has recently published a book titled “What In ‘Hell’ Does God Want: Seeking The Answer In Darkness,” which offers a fair, brutal, and honest depiction of the unhealed trauma that prevails among all. Green has done a remarkable job crafting this book and the story, which showcases a broader picture of human emotions through the lives of Sasha, Tasha, and Sade, the sisters and main protagonists of the story. The poignancy of their shattered lives can become relatable to readers who can find themselves among the sisters. The story is thought-provoking and offers a rectified perception of life and faith.

The title of the book, ‘What In “Hell” Does God Want,’ showcases an emphasis on ‘Hell,’ and it is for good reason. The author has thoughtfully justified the idea of ‘Hell’ that does not occur in the afterlife but in real life when humans suffer from untreated trauma. While the stoic nature of suffering in silence is praised by many, Green seeks the answer in the darkness. The author believes that ‘Hell’ exists in the minds of humans, where unhealed trauma and masked pain manifest and become the inner demon.

While pain, despair, and betrayal are integral to human lives, one must embrace the power of forgiveness and faith that helps to transform.

Carmon Green also addressed the human tendency to find a false sense of happiness and safety in the wrong places through the characters of this story, in the backdrop of Philadelphia. This human story of self-inflicted pain and struggles can speak for the thousands of people who find it difficult to talk about, and so, readers will feel heard and seen through this book. 'What In "Hell" Does God Want: Seeking The Answer In Darkness' also questions God's presence in human suffering, and it aims to offer a path of light that everyone can follow. The book is currently available on Amazon, and readers can easily find this intriguing book at <https://www.amazon.com/What-Hell-Does-God-Want/dp/1962381900>.
