Chandigarh, India Jun 18, 2026 (IssueWire.com) - For anyone in the Tricity who has ever Googled "[best plastic surgeon in Chandigarh](#)," one name emerges with remarkable consistency: **Dr. Abhinav Aggarwal**. Now, after more than a decade of transforming lives with surgical precision and artistic vision, Dr. Aggarwal's Aesthetics has raised the bar once more — equipping its state-of-the-art clinic in Sector 40D with three of the most advanced cosmetic technologies available anywhere in the world: **VASER Pro 2.0, TRIBEAM Premium, and Power X.**

The upgrade positions Dr. Aggarwal's Aesthetics firmly as the leading [Cosmetic Surgery Clinic in Chandigarh](#) — a destination not merely for the Tricity, but for patients traveling from Punjab, Haryana, Himachal Pradesh, and beyond who demand world-class results without world-class travel.

A Surgeon Who Rewrites What's Possible

Dr. Abhinav Aggarwal is not an ordinary cosmetic surgeon. Trained at JIPMER and PGIMER — two of India's most demanding postgraduate institutions — and affiliated with La Clinique Montreux, the Indian

Medical Association, and the Indian Association of Aesthetic Plastic Surgeons, his credentials are matched only by his outcomes.

With over **10+ years of experience**, a **98% surgical success rate**, and **more than 1,000 surgeries performed**, Dr. Aggarwal has built a reputation that patients describe in one word: trustworthy. He was also a key member of the pioneering surgical team that performed **India's first hand transplant surgery** — a landmark achievement that speaks to the rare caliber of skill he brings to every procedure he undertakes.

Yet what truly distinguishes Dr. Aggarwal is his philosophy: that surgery is not just a technical procedure, but an art form. Every incision is deliberate. Every result is crafted to look natural. And every patient leaves not just changed, but **genuinely confident**.

The Technology That's Redefining [Cosmetic Surgery](#)

Great surgeons know that great tools make great results possible. At Dr. Aggarwal's Aesthetics, the clinic's latest technology investments are built on a single promise: **safer procedures, faster recovery, and superior outcomes**.

VASER Pro 2.0 — The New Gold Standard in Liposuction

Traditional liposuction removes fat. VASER Pro 2.0 sculpts the body. Using precisely targeted ultrasound energy, VASER Pro 2.0 selectively emulsifies fat cells while leaving surrounding nerves, blood vessels, and connective tissue completely intact. The result? Dramatically smoother contours, significantly reduced bruising, and recovery timelines that allow patients to return to their normal lives in days — not weeks.

For patients seeking [liposuction in Chandigarh](#), this technology is a game-changer. Areas like the abdomen, flanks, back, thighs, arms, and chin that once required aggressive conventional liposuction can now be sculpted with the precision of an artist's brush.

TRIBEAM Premium — Advanced Laser for Skin Transformation

TRIBEAM Premium is a next-generation Q-switched laser system engineered specifically for the unique characteristics of South Asian skin. Where older laser technologies often carried risks of post-inflammatory hyperpigmentation for Indian skin tones, TRIBEAM Premium delivers transformative results with exceptional safety.

At Dr. Aggarwal's Aesthetics, TRIBEAM Premium is deployed for an impressive range of skin concerns:

- Stubborn pigmentation and melasma
- Acne scars and uneven skin texture
- Tattoo removal — including multi-colour and deep-set tattoos
- Dull or uneven skin tone requiring full-face rejuvenation
- Carbon facials for a deep cleanse and radiant glow

The procedure is non-invasive, virtually painless, and requires minimal downtime — making it one of the most in-demand non-surgical options at the clinic.

Power X — Perfecting the Final Result

Body contouring does not end with fat removal. Power X addresses what happens next — ensuring that post-procedure skin remains firm, toned, and aesthetically harmonious with the new body contour. Whether used after VASER liposuction, as a standalone non-surgical fat reduction treatment, or as an adjunct to hair transplant and fat transfer procedures, Power X ensures that patients' results look refined, not just reduced.

Together, VASER Pro 2.0, TRIBEAM Premium, and Power X form a comprehensive transformation ecosystem — fat removal, skin tightening, and surface rejuvenation working in concert to deliver full-body results that were once achievable only through multiple interventions.

A Comprehensive Menu of Procedures

The technology upgrades complement an already exhaustive range of surgical and non-surgical procedures at Dr. Aggarwal's Aesthetics. Also Read: [How Latest Technology & Equipments are Redefining Cosmetic Surgery?](#)

The clinic's offerings span every dimension of aesthetic medicine:

Face Procedures

- Rhinoplasty (Nose Job) — structural precision for functional and aesthetic harmony
- Facelift Surgery — restoring youthful contour and skin laxity
- Lip Surgery & Lip Fillers — natural volume and definition
- Facial Implants — jawline, chin, and cheek enhancement
- Fat Transfer to Face — organic volume restoration using the patient's own fat
- Vivace RF Microneedling — collagen stimulation and skin tightening

Body Procedures

- VASER Liposuction — precision body sculpting with ultrasound technology
- Abdominoplasty (Tummy Tuck) — restoring a flat, defined abdomen
- Gynecomastia Surgery — correction of male chest tissue for renewed confidence

Breast Procedures

- Breast Augmentation, Lift, and Reduction — tailored to each patient's anatomy and goals

Hair & Non-Surgical

- Hair Transplant — natural, permanent hairline restoration
- Hydrafacial, Chemical Peels, Anti-Wrinkle Injections, Fillers & Skin Boosters
- Laser Hair Reduction — safe for all body areas including sensitive skin

What Patients Say

Numbers only tell part of the story. Patient experiences tell the rest. Richa Bansal, who underwent liposuction at the clinic, described the journey as exceptional from consultation to post-operative care. Rupinder Singh called Dr. Aggarwal's approach "highly professional" and praised how it made him feel comfortable and confident through every stage.

Raashi Gupta went further: "Dr. Aggarwal is probably one of the best surgeons in the area. He follows up with the patient until perfect recovery. Extremely satisfied."

These testimonials, echoed across Google reviews and the clinic's patient feedback portal, reflect a practice built on genuine care — not just clinical outcomes.

Why Patients Across North India Choose Dr. Aggarwal's Aesthetics

The clinic's appeal goes well beyond geography. Patients from Mohali, Panchkula, Ludhiana, Ambala, Shimla, and even Delhi choose Dr. Aggarwal's Aesthetics for a convergence of reasons:

- A surgeon with 10+ years of experience and a 98% success rate — rare in any specialty
- World-class technology: VASER Pro 2.0, TRIBEAM Premium, and Power X — among the most advanced systems in India
- International affiliations and training, including JIPMER, PGIMER, and La Clinique Montreux
- Ground-floor clinic in Sector 40D — fully accessible for all patients, including elderly and differently-abled
- Transparent, personalized consultations with detailed treatment planning and honest cost guidance
- Post-operative follow-up culture that does not end at discharge
- A dual-expert team: Dr. Abhinav Aggarwal for surgical precision and Dr. Aditi Jha for aesthetic and dermatological care

Quote from Dr. Abhinav Aggarwal

"Our patients come to us carrying more than cosmetic concerns — they carry years of self-consciousness, of dreaming about a version of themselves they have not yet met. Our job is to bridge that gap safely, beautifully, and with lasting results. The addition of VASER Pro 2.0, TRIBEAM Premium, and Power X means we can now offer outcomes that were previously only possible at clinics in Mumbai, Delhi, or abroad — right here in Chandigarh. This is not just about technology. It is about giving every patient in North India access to the gold standard they deserve."

— Dr. Abhinav Aggarwal, Founder & Lead Plastic Surgeon, Dr. Aggarwal's Aesthetics

About Dr. Aggarwal's Aesthetics

Dr. Aggarwal's Aesthetics is Chandigarh's premier destination for cosmetic, plastic, and reconstructive surgery, located at SCO-325, Sector 40D, Chandigarh — serving patients from across the Chandigarh-Mohali-Panchkula Tricity and greater North India. Founded and led by Dr. Abhinav Aggarwal — a member of the Indian Medical Association, the Indian Association of Aesthetic Plastic Surgeons, the Punjab Medical Council, and the Medical Council of India — the clinic combines surgical mastery with cutting-edge technology to deliver natural, lasting results. With over 1,000 successful procedures and a 98% success rate, Dr. Aggarwal's Aesthetics is the trusted choice for patients who refuse to compromise.
