

Cleartwo Wins AI Agency of the Year at the 2026 National Digital Awards

Stockport-based agency claims top AI honour at the inaugural national ceremony in Birmingham, with three additional runner-up finishes.

Manchester, United Kingdom Jun 9, 2026 ([Issuewire.com](https://www.issuewire.com)) - [Cleartwo](#), a leading digital, AI, and IT services agency headquartered in Stockport, has been named **AI Agency of the Year** at the prestigious 2026 National Digital Awards. The accolade was presented at the inaugural ceremony held in Birmingham, which brought together hundreds of digital professionals from across the United Kingdom.

In addition to the headline win, Cleartwo secured runner-up positions in three further categories: **SEO Agency of the Year**, **Operations**, and **Video Production**, a result that reflects the agency's broad capabilities across artificial intelligence, search, content, and technical delivery.

A Brand-New Category for a New Era

AI Agency of the Year was introduced as a new category at the 2026 awards, specifically created to

recognise genuine innovation in artificial intelligence. Cleartwo's win positions the agency firmly on the national stage, acknowledging its work in AI-driven strategy, automation, and content.

Director's Response

Omer Riaz, Director at Cleartwo, commented:

"Winning AI Agency of the Year at the National Digital Awards 2026 was genuinely overwhelming. The volume of messages from clients, partners, and the wider digital community was remarkable.

"We were shortlisted across several categories, which in itself was a proud moment for everyone at Cleartwo. But to take home the AI award, a brand-new category recognising genuine innovation in artificial intelligence, made it even more special.

"The work we are doing in AI-driven strategy, automation, and content is some of the most exciting in the industry right now, and this recognition places Cleartwo firmly on the national stage. Every award like this belongs to the team. Without them, none of it happens."

Recognition Built on a Strong Foundation

The award win follows four shortlist nominations earlier in the year, including:

- **Best Agency Ops Director of the Year**, co-owner Satnam Singh
- **Best Use of AI**
- **Best SEO Agency**
- **Best Use of Video and Animation**

Cleartwo employs a team of more than 100 professionals across its UK and offshore operations.

About the National Digital Awards

The inaugural National Digital Awards were founded by entrepreneur Qasim Majid, alongside Ifraz Ahmed and Anita Chumber of B Events, with the mission of recognising digital professionals and agencies producing exceptional work across the UK. The 2026 ceremony was hosted by PJ Ellis, with entertainment provided by Hit the Dhol and The Undercover Artists.

Qasim Majid said:

"These awards are about recognising the unsung heroes, the people quietly doing brilliant work every day. Agencies have battled through COVID, economic uncertainty, AI disruption, and constant change, yet they continue to innovate, create jobs, and drive businesses forward. This is about recognising people who carry the pressure of payroll, sleepless nights, and responsibility, and still produce amazing work."

The evening's official charity partner was **Centrepoint**, with guests raising over **£2,500** in support of the charity's work tackling youth homelessness across the UK.

About Cleartwo

Cleartwo is a full-service UK digital agency headquartered in Stockport, with a team of more than 100

people across the UK and offshore.
