

Damian Stutz, Drives Healthcare Innovation Through Expertise in Digital Pathology and Diagnostic Solutions

Experienced Healthcare Sales Leader Leverages Expertise in Clinical AI, Digital Pathology, and Strategic Partnerships to Advance Patient Care Solutions

Katy, Texas Jun 30, 2026 ([Issuewire.com](https://www.issuewire.com)) - Damian Stutz, a highly accomplished healthcare sales professional with extensive expertise in digital pathology and diagnostic technologies, continues to make a significant impact in the healthcare industry through his strategic leadership, customer-focused approach, and commitment to innovation. With more than a decade of experience supporting healthcare

systems, laboratories, and clinical organizations, Stutz has established himself as a trusted advisor in the rapidly evolving fields of digital pathology, Clinical AI, and Process AI.

Most recently, Stutz served as Territory Account Manager at CareDx, Inc., where he focused on expanding market presence and building strategic partnerships across competitive, multi-state territories. In this role, he collaborated closely with health systems and clinical stakeholders to deliver innovative diagnostic solutions that improved operational efficiency and supported enhanced patient outcomes. His ability to understand complex healthcare challenges and align them with value-driven technologies contributed to sustained revenue growth and strengthened long-term organizational relationships.

Prior to joining CareDx, Stutz held several key leadership positions within prominent healthcare and life sciences organizations, including Leica Biosystems, a division of Danaher Corporation. As both Strategic Health Systems Executive and Account Manager, he successfully managed diverse product portfolios and high-performing territories responsible for generating tens of millions of dollars in annual revenue. Through strategic account development, effective negotiation, and a deep understanding of healthcare system operations, he consistently achieved year-over-year growth while expanding relationships with Integrated Delivery Networks and major health systems.

Stutz also gained valuable industry experience with T2 Biosystems and Cepheid, where he developed specialized knowledge in pathology workflows, instrumentation, and diagnostic technologies. Throughout his career, he has earned a reputation for translating complex clinical and technical concepts into practical solutions that address the evolving needs of healthcare providers. His strong presentation skills, consultative sales methodology, and dedication to customer success have positioned him as a respected leader within the healthcare technology sector.

A graduate of Marymount Manhattan College with a Bachelor's degree in Psychology, Stutz credits his educational background for helping shape his relationship-focused and consultative approach to business. Beyond his professional accomplishments, he remains committed to supporting children-focused charitable causes and community initiatives. As healthcare organizations continue to embrace digital transformation and artificial intelligence, Damian Stutz remains at the forefront of innovation, helping clients navigate change while delivering solutions that improve efficiency, enhance diagnostics, and ultimately contribute to better patient care.
