

Dex System Announces the Release of From Khartoum to Kharg Island: The Long War for the Global Jugular by Liam Conrad

A Sweeping New Work of Geopolitical Analysis Connecting Africa, the Middle East, and the World's Most Contested Energy Corridors

Los Angeles, California Jun 6, 2026 (Issuewire.com) - Dex System is pleased to announce the release of From Khartoum to Kharg Island: The Long War for the Global Jugular by Liam Conrad, now available in paperback, digital, and audiobook formats across major retail platforms.

In his latest work, Conrad — acclaimed author of *The 9/11 War: Inside the Secret Alliance Between Al-Qaeda and Iran* and *The War That Rewrote the Middle East* — turns his attention to one of the most strategically consequential corridors on the planet. Spanning from the Sudanese capital of Khartoum to the Iranian oil terminal of Kharg Island, the book charts the long arc of conflict, proxy warfare, and resource competition that has defined the modern struggle for control over the world's economic lifelines. Conrad brings the same rigorous research and propulsive narrative voice that defined his earlier titles to this essential new examination of how geography, oil, and ideology have converged to shape — and destabilize — the global order.

"This is a book for anyone who wants to understand why the world's most dangerous flashpoints keep reigniting," said a spokesperson for Dex System. "Liam Conrad has an extraordinary ability to connect historical dots that most analysts treat in isolation."

From Khartoum to Kharg Island is available now through the following channels:

Paperback & Digital:

Amazon — <https://www.amazon.com/Khartoum-Kharg-Island-Global-Jugular/dp/B0GVVZMNMG/>

Audiobook:
