Rajkot, Gujarat Jun 16, 2026 ([IssueWire.com](https://www.issuewire.com)) - This philosophy has guided Dr. Kinjal Bhayani Anadkat, Consultant Homeopath and Medical Cosmetologist, throughout her 13-year medical career.

With a vision to create a healthier and disease-free society, Dr. Kinjal has dedicated her professional life to providing ethical, evidence-based, and affordable healthcare. As the Founder and Medical Director of ABHA Multi-Speciality Clinic, Rajkot, she believes that quality treatment should never be limited by financial barriers.

A Strong Educational Foundation

Dr. Kinjal completed her Bachelor of Homeopathic Medicine and Surgery (B.H.M.S.) from Saurashtra University in 2012. Driven by a passion for continuous learning, she pursued additional qualifications including:

- Certificate in Skin Diseases (C.S.D.) – Meghalaya University (2013)
- Fellowship in Medical Cosmetology (F.M.C.) – Greifswald University, Germany (2017)
- Diploma in Nutrition (2020)

These qualifications have enabled her to combine the science of homeopathy with modern aesthetic medicine and nutritional wellness, offering patients a comprehensive approach to health.

Building ABHA Multi-Speciality Clinic

With a dream of providing holistic healthcare under one roof, Dr. Kinjal established ABHA Multi-Speciality Clinic in Rajkot.

The clinic offers personalized treatment for:

- Skin diseases
- Hair disorders
- Homeopathic consultation
- Medical aesthetics
- Weight management
- Advanced laser treatments
- Nutrition guidance

The clinic is equipped with advanced aesthetic technologies for treating acne scars, pigmentation, wrinkles, freckles, birthmarks, stretch marks, surgical scars, warts, corns, and unwanted hair while maintaining strict standards of patient safety.

Healthcare That Everyone Can Afford

One of the unique initiatives of ABHA Multi-Speciality Clinic is Free Consultation Every Friday, allowing patients from all backgrounds to receive expert medical advice.

Dr. Kinjal strongly believes that healthcare should be compassionate and accessible. Her clinic focuses on delivering high-quality treatments at affordable charges without compromising patient care.

Seven Years of Charitable Medical Service

Before establishing her independent practice, Dr. Kinjal served as a Consultant Family Physician for seven years at Sadguru Ranchhod Dasji Ashram Eye Hospital, Rajkot, one of Gujarat's respected charitable healthcare institutions.

The Ashram has been serving society for more than five decades through free cataract surgeries and low-cost medical services.

Working there gave Dr. Kinjal an opportunity to treat thousands of patients and strengthened her belief that true success lies in serving those in need.

She considers this period one of the most rewarding chapters of her professional life.

Balancing Motherhood and Medicine

Like many working women, Dr. Kinjal's journey has not been without challenges.

During the COVID-19 pandemic, she continued treating patients while caring for her four-month-old baby at home. Wearing PPE kits for long hours, following strict sanitization protocols, and repeatedly disinfecting herself before holding her child demanded both physical and emotional strength.

Despite these challenges, she remained committed to her patients and never allowed adversity to stop her from serving society.

She credits her husband, parents, and in-laws for their constant encouragement and unwavering support.

Extending Care Beyond the Clinic

Dr. Kinjal also provides online consultations through trusted healthcare platforms such as Lybrate, Practo, and Curofy, making professional medical advice accessible to patients across India.

She actively shares educational health awareness through her social media communities:

- Instagram: ABHA Multi Speciality Clinic
- Facebook: ABHA Arc of Life

Her goal is to educate people about preventive healthcare, skin wellness, hair care, nutrition, and the benefits of evidence-based homeopathy.

A Vision for the Future

Dr. Kinjal dreams of expanding ABHA Multi-Speciality Clinic with multiple branches across India and internationally.

Her mission remains simple yet powerful:

“To build a disease-free society where every individual has access to safe, ethical, effective, and affordable healthcare.”

She believes that every patient deserves not only treatment but also empathy, dignity, and hope.

For Dr. Kinjal, the greatest achievement is not measured by awards or recognition but by the smiles of patients who regain their health and confidence.
