

Drishti Innovations Powers Educational Transformation Through School OS, AI Learning and Certification Programs

Drishti Innovations delivers an integrated School OS featuring ERP, LMS, AI-powered learning, Robotics, STEM education and automation while expanding future-ready technology skills through its AI Certification Program in Patna, Bihar.

Patna, Bihar Jun 11, 2026 ([Issuewire.com](https://www.issuewire.com)) - Drishti Innovations is a leading education technology and digital transformation company dedicated to helping educational institutions embrace innovation through technology-driven solutions. The company is focused on building an integrated ecosystem that enables schools, educators, students, and parents to thrive in a connected and future-ready learning environment.

The company's flagship vision revolves around creating a comprehensive School OS that combines School ERP, Learning Management Systems (LMS), Parent Communication Platforms, AI-powered learning assistance, student engagement tools, admissions management, analytics, and administrative automation into a single unified platform. By reducing operational complexity and enhancing educational outcomes, Drishti Innovations empowers institutions to focus on what matters most—student success.

Through its integrated platform ecosystem, Drishti Innovations delivers solutions spanning School ERP, LMS, Parent Engagement, AI Tutor capabilities, Admissions Management, Student Engagement, Teacher Productivity Tools, Analytics, and School Automation. Schools can explore the platform architecture at <https://drishtiinnovations.com/platform-map> and discover available solutions at <https://drishtiinnovations.com/features>.

Beyond software solutions, Drishti Innovations actively promotes innovation-led learning through Robotics, STEM Education, Coding Programs, Artificial Intelligence initiatives, teacher enablement programs, and digital transformation consulting. Educational institutions can learn more about Robotics and STEM initiatives at <https://drishtiinnovations.com/features/robotics-stem>.

With a mission to make advanced technologies accessible and practical, Drishti Innovations is committed to preparing students and institutions for the future. Through continuous innovation, strategic partnerships, and scalable technology solutions, the company aims to become a trusted partner for educational transformation across India and beyond.

The organization continues to expand its reach through industry collaborations, educational initiatives, and technology programs designed to build future-ready skills among learners and professionals.

As part of this mission, Drishti Innovations recently announced its AI Certification Program in Patna, Bihar, aimed at helping students, educators, professionals, and entrepreneurs gain practical exposure to Artificial Intelligence, Prompt Engineering, Automation, and emerging technologies. Registration details are available at <https://drishtiinnovations.com/PatnaJune26AICertification>.

The initiative reflects the company's commitment to expanding access to future-focused technology education and skill development opportunities across India.
