

## Emily Jones NYC Launches the Black Dover Top Handle Bag — A Mid Luxury Handbag Built From Recycled Materials

New York City based sustainable brand introduces a sleek dual compartment mid luxury handbag handcrafted from recycled leather

**New York City, New York Jun 11, 2026 ([Issuewire.com](https://www.issuewire.com))** - Emily Jones NYC, a New York City based sustainable handbag brand, has announced the launch of the Black Dover Top Handle Bag. Priced at 440 dollars, the Dover sits firmly in the [mid luxury handbags](#) space, offering premium design and responsible materials without the ultra luxury price tag.

The Black Dover Top Handle Bag is handcrafted in New York City using recycled leather made from discarded wet blue leather off cuts that would otherwise end up in landfills. The interior lining is made entirely from recycled plastic bottles. The bag features two separate interior compartments, one interior pocket, and a detachable adjustable crossbody strap with a 21.25 to 25 inch drop. It measures 12 inches long, 4.375 inches wide, and 9 inches high.

The Dover was designed for women who want a **mid luxury handbag** that works as hard as they do. From the office to a night out, it moves with you without missing a beat. It is the kind of piece that brings together craftsmanship, sustainability, and everyday function in one clean design.

Emily Jones, founder of Emily Jones NYC, said: "We designed the Dover for women who care about

what they carry and where it comes from. It is a **mid luxury handbag** that does not compromise on craft, sustainability, or style. Every detail, from the recycled leather shell to the bottle lining, reflects who we are as a brand."

The Black Dover Top Handle Bag is now available exclusively at [www.emilyjonesnyc.com](http://www.emilyjonesnyc.com). Emily Jones NYC offers free ground shipping on all orders across the United States.

### **About Emily Jones NYC**

Emily Jones NYC is a New York City based sustainable handbag brand. Every bag is handcrafted in NYC using upcycled leather, deadstock materials, and recycled plastic bottle lining. The brand is committed to reducing textile waste while delivering **mid luxury handbags** built for real life in the city.
