

Kansas Author Sigrid Brockenhuus Releases Dark Medieval Time-Slip Novel *When Time Found Her*

A haunting blend of modern trauma and medieval siege warfare drives this atmospheric new time-slip novel.

Wichita, Kansas Jun 7, 2026 (IssueWire.com) - Kansas author Sigrid Brockenhuus announces the release of her debut novel, *When Time Found Her*, a dark, atmospheric time-slip story that blends modern trauma with the brutal reality of fourteenth-century Brittany. The novel follows a young woman

haunted by recurring visions of a burning medieval castle—visions that feel less like dreams and more like memories. As the boundary between centuries begins to fracture, she is pulled into the smoke, iron, and violence of 1384 Brittany, where a forgotten siege and a long-buried past refuse to stay silent.

“I wanted to write a time-slip story that felt lived-in, not magical,” Brockenhuus says. “The medieval world wasn’t romantic—it was dangerous, smoky, and loud. I wanted readers to feel that reality pressing through the centuries.”

Brockenhuus delivers a story grounded in historical realism, emotional depth, and cinematic tension. *When Time Found Her* is a print-only release, reflecting the author’s belief that certain stories are meant to be held, not streamed.
