

Ksolves Introduces AI-Powered Salesforce Implementation & Development Services For Smarter Business Outcomes

En(AI)bling™

**AI + Salesforce =
Better Outcomes**

Built to automate, optimize, and scale.

Noida, Uttar Pradesh Jun 4, 2026 ([Issuewire.com](https://www.issuewire.com)) - Ksolves India Limited, an AI-first, publicly listed software development company, is proud to announce the official launch of its AI-Powered Salesforce Implementation & Development Services. As a [Salesforce Summit Partner](#), the highest tier in the Salesforce partner ecosystem, Ksolves brings unmatched credibility, certified expertise, and a proven delivery track record to this next phase of its Salesforce practice. This milestone combines deep CRM expertise with cutting-edge artificial intelligence to help businesses transform how they sell, serve, and grow.

Salesforce remains the world's leading CRM platform, but modern businesses require more than standard configurations to stay competitive. They need intelligent automation, predictive insights, and seamless integrations that evolve with changing customer journeys. The new AI-powered Salesforce offering by Ksolves is purpose-built to meet this demand, bringing together certified Salesforce professionals and AI/ML engineers under one roof to deliver solutions that go far beyond traditional implementation.

Ksolves: A Trusted Salesforce Summit Partner in the USA, India, Australia & Dubai

Achieving Salesforce Summit Partner status places Ksolves among a selected group of global partners recognized for the highest standards of customer success, technical certifications, and platform expertise. This distinction means that when clients choose Ksolves for their Salesforce journey, they are working with a partner validated at the most rigorous level by Salesforce itself, giving businesses confidence that their implementations are in expert hands.

Building on this foundation, the new AI-powered Salesforce services take this trusted expertise a step further, embedding artificial intelligence across every layer of the Salesforce platform to deliver smarter, faster, and more impactful outcomes.

What Ksolves AI-Powered Salesforce Services Deliver

As businesses accelerate their digital transformation agendas, Ksolves is now uniquely positioned to offer end-to-end Salesforce services enriched with artificial intelligence at every layer. Clients can now partner with Ksolves for:

- **AI-Driven [Salesforce Implementation](#):** Design and deploy fully configured Salesforce Cloud environments, powered by intelligent workflows, Agentforce capabilities, and automation from day one.
- **[Agentforce](#) and Einstein AI Integration:** Leverage Agentforce agents and Einstein AI for predictive lead scoring, opportunity forecasting, and intelligent customer service resolution.
- **Custom AI Model Integration:** Embed proprietary or third-party AI/ML models directly into Salesforce workflows to automate repetitive tasks, surface real-time insights, and personalize customer interactions at scale.
- **Salesforce Development and Customization:** Build tailored Lightning Web Components, Apex classes, triggers, and API integrations that align with unique business processes and industry requirements.
- **Salesforce AppExchange Solution Development:** Architect and publish ISV-grade Salesforce applications with embedded AI features for global distribution and commercial deployment.
- **Managed Services and Continuous Optimization:** Deliver post-implementation support, health checks, and ongoing AI model tuning to ensure Salesforce environments scale with business growth.

Why AI-Powered Salesforce Services Matter Now

Organizations that integrate AI into their Salesforce ecosystems are seeing measurable improvements in sales productivity, customer satisfaction, and operational efficiency. From intelligent case routing in Agentforce Service (formerly Service Cloud) to autonomous AI agents handling tier-one customer queries, the convergence of Salesforce and AI is reshaping how enterprises engage with their customers and manage their pipelines.

As a Salesforce Summit Partner, Ksolves brings a rare combination of platform-validated expertise and in-house AI/ML capability to this space, enabling clients to move from traditional CRM deployments to truly intelligent, self-optimizing customer engagement platforms.

Leadership Perspective

"Reaching Salesforce Summit Partner status has been a testament to the dedication and excellence of our entire Salesforce team. Now, with AI deeply embedded into our [Salesforce services](#), we are entering an exciting new chapter. Our goal is simple: to help every client unlock the full, intelligent potential of their Salesforce platform, faster and more effectively than ever before."

Ratan Srivastava, Founder and CEO, Ksolves India Limited
