

PolyChat Launches Version 5: Complete A1–C2 Curriculum and Unlimited Custom Language Lessons

New intake exam, on-demand lesson creator, advanced voice AI, and gamified leaderboards make personalized fluency more accessible than ever

Austin, Texas Jun 11, 2026 ([IssueWire.com](https://www.issuewire.com)) - **PolyChat**, the free language learning platform dedicated to unlimited practice for everyone, today released Version 5, delivering a library of over **5,000 lessons** across all supported languages, covering every CEFR level from **A1 through C2**, plus powerful new tools for truly personalized learning.

Version 5 transforms how users learn by combining structured progression with complete flexibility. A new proficiency intake exam accurately places learners at the right level, while the groundbreaking **Custom Scenario and Lesson Creator** lets users instantly generate tailored lessons on any topic — from business negotiations to travel adventures or niche hobbies.

Additional highlights include:

- Dramatically improved natural-sounding voices for superior listening and speaking practice
- New interactive formats: writing exercises, image-driven challenges, and dynamic dialogue games
- Optimized lesson pacing for better language retention
- Competitive daily, weekly, monthly, and all-time leaderboards for vocabulary and conjugation
- Engaging new animations, redesigned progress tracking, and major performance optimizations
- Freedom to learn through real-world content, including mature and advanced topics often unavailable in traditional language learning apps

“Version 5 brings us significantly closer to our goal of building the greatest language learning app ever,” said Jean-Baptiste Bolh, Co-Founder of PolyChat. “By offering unlimited lessons, a complete curriculum, and the ability to create custom content on demand, we’re empowering learners to practice without limits and progress at their own pace like never before.”

The release comes as PolyChat surpasses 10,000 users worldwide, marking a significant milestone in the platform's growth.

Version 5 is available now on iOS and Android.

About PolyChat

PolyChat is a free language learning platform that combines structured A1–C2 curricula with unlimited, AI-powered custom lessons and games. Designed for real-world practice and long-term retention, PolyChat makes mastering new languages flexible, engaging, and accessible to all.
