

## Resto Launches Across India with Zero Delivery Charges and a Restaurant-First Food Delivery Platform

The Indian food delivery platform is expanding nationwide, empowering local restaurants, delivery partners, and franchise partners with transparent pricing, zero delivery charges, and technology-driven online food ordering.

**Resto**, the innovative food delivery platform developed by **RestoFoods Private Limited**, has officially announced its nationwide expansion across India. Built with a **restaurant-first approach**, Resto aims to redefine the **online food delivery** experience by offering **Zero Delivery Charges** on eligible orders while helping local restaurants grow through transparent and technology-driven solutions.

As India's food delivery industry continues to evolve, Resto is committed to making **online food ordering** more affordable, convenient, and rewarding for both customers and restaurant partners. The platform enables users to discover nearby restaurants, compare menu prices before placing an order, access exclusive offers, make secure online payments, and enjoy a seamless ordering experience through the Resto Android app, iOS app, and website.

Unlike conventional food delivery platforms, Resto focuses on empowering restaurants by providing a fair and transparent business model. Restaurant partners receive advanced digital ordering tools, greater online visibility, marketing support, and opportunities to grow their customer base without unnecessary complexity. Customers benefit from affordable pricing, **Zero Delivery Charges**, reliable delivery, real-time order tracking, and a user-friendly food ordering experience.

The Resto platform is designed to support restaurants of every size, including restaurants, cafés, cloud kitchens, bakeries, sweet shops, juice centers, fast-food outlets, and local food businesses. With a growing network of restaurant partners and delivery partners, Resto aims to strengthen local food ecosystems while making **food delivery in India** faster, easier, and more affordable.
