

A Hat-Trick with Damen: TWW Yachts Secures Third New-Build Sale in Under a Year

TWW Yachts is happy to announce the sale of another Damen Xplorer 60. This is the third of this series that a TWW broker has sold.

La Condamine, Monaco Jul 15, 2026 ([Issuewire.com](https://www.issuewire.com)) - TWW Yachts has secured a new-build contract for the second hull from the Damen Xplorer 60 series, brokered by Alex Heyes. This is the third new-build Damen sold by [TWW Yachts](#) in the past 12 months.

*"From the outset, we were confident the Xplorer 60 was the right platform to deliver our client's vision of genuine global exploration," says **Alex Heyes of TWW Yachts**. "Both our team and the owner have been hugely impressed by Hull 1, and that experience gave us every confidence Hull 2 would meet the same ambition for unrestricted global cruising."*

The Damen Xplorer 60 series has generated strong market interest among owners seeking genuine expedition capability. Damen has created a true go-anywhere explorer engineered for serious range and capability. Like her sistership, the latest hull features design by Azure Yacht Design and Naval Architecture and custom interiors by H2 Yacht Design.

Together, the two studios have developed owner-focused living spaces tailored for extended time onboard, combining comfort and functionality with robust engineering expected of a self-sufficient

expedition yacht. Damen Yachting describes the Xplorer 60 series as being “as comfortable navigating the glamorous hotspots of the Mediterranean as she is exploring polar frontiers”.

The guest layout spans three decks and includes several large lounge areas, among them a stunning forward observation lounge with 270-degree panoramic views and a 60-square-metre main deck salon and dining area. Al fresco space is just as generous, and one of the Xplorer 60’s defining features is a 195-square-metre multifunctional outdoor area below the helideck, which can be customised as a Cabana Lounge, a dive and wellness deck, or a storage area for tenders and expedition equipment.

To truly expand horizons, the Xplorer 60 is equipped with an efficient propulsion package that delivers a 5,000-nautical-mile range and up to 30 days of autonomous cruising. She can host up to 12 guests across six beautifully appointed suites.

Jorrit Pilaar, Commercial Executive of EMEA, Damen Yachting, declares: “We greatly value our partnership with TWW Yachts, which has already resulted in the sale of three yachts within the space of just one year. This is a strong reflection of the trust, commitment and close cooperation between our teams, and we look forward to building on this successful relationship in the future.”

The previous new-build Damen yachts sold by TWW Yachts were the first hull from the Damen Xplorer 60 series, *After You*, and the 53.25 m YS53 support vessel, *Emotional*, both sold to the same owner late last year. The final stages of both yachts’ construction were managed by TWW Yachts, as were the subsequent refit and the forthcoming global charter programme.

The second hull of the Damen Xplorer 60 will join *After You* and *Emotional* under TWW Yachts’ management. Delivery of this new Damen Xplorer 60 is scheduled for 2028.
