

# A Time for Unity: Dex System Reflects on Shared Values Ahead of America's 250th

Closing out the summer push with a reflective, values-driven release

**Los Angeles, California Jul 2, 2026 ([Issuewire.com](https://www.issuewire.com))** - As fireworks fade into late-July reflection, Dex System's fifteenth Semiquincentennial release turns toward unity — the shared values that bring a diverse nation together even amid disagreement. Independence Day has always held two threads at once: celebration and argument, unity and dissent. This installment leans into that tension.

Harold Morrison's *The Mnemosyne Protocol* and Rane Corvus' *The Node Seven Sync* each explore connection across difference — memory, network, and shared systems as metaphors for what actually holds a society together. Ronald Bartholomew's *The Perpetual Twins: The Null Settlement* closes the list with a story about reconciling opposing forces, a fitting note for a holiday built on the idea that disagreement and unity aren't mutually exclusive.
