

Amazing Things The Church Celebrates Anniversary with AI-Iteration 2 Reaching Nearly a Million a Week Worldwide

The Nation's Largest (Stand Alone) Virtual Church Continues Pursuing Excellence

Dallas, Texas Jul 14, 2026 (Issuewire.com) - Celebrating thirty three years of ministry next month (August 2026). There's a ministry operating under "church media conglomerate's" radar, impacting millions worldwide each week. While the social media industry esteems followers and subscribers. More importantly, the ministry's leader, Dr Steven DavidSon, views what he calls the 'Daily Level of Virtual Efficacy.' Seriously, LOVE!

“Absolutely, what is the daily activity, interactions, attendance, responses. As an example, a church typically has a membership substantially more than actual Sunday attendance. The same is with followers and subscribers. Here’s a distinguishing or ‘amazing’ result. Utilizing social media platforms to advertise, the highest industry standard of product interest is a [CTR \(Click-through-Rate\) between 7-12 %](#). All we post daily reaching, informing, educating, counseling, equipping, people for service our average CTR is 70%. We deliver to the general public globally. Seventy percent respond to us daily. We cannot think of a better daily metric than the daily ‘Level of Virtual Efficacy’, LOVE.”

Asked about the ministry’s results in the face of [greater church scrutiny, decreasing attendance](#), a recent Gallup poll showing [trust in clergy at a historic low](#), and fear of AI, DavidSon responds:

“Most of the polling is the West, particularly the United States. We made the strategic decision to deliver quality ministry to the most unchurched or under supported churches on the planet. Over 95% of our mission is abroad. The United States which is our base of operations, has an estimated 30% of Protestant Churches 4% of the world’s population. No question the large representation without quality control has nearly destroyed the testimony of credibility in the United States. Eighty percent (80%), of those we reach are under 40 years old. AI is the contemporary parable or pedagogy of this day. Given our experience, and obvious growth in results the majority embrace AI. The Gospel remains the basis and core.”

DavidSon contributes the success to a number of factors. “We’ll give all credit to the One who touched our lives, and called us to this great work, Christ-Jesus. Then those who caught the vision thirty-three years ago and during this journey. Today, the Lord has assembled an outstanding team of dedicated leaders to be a part of this Apostle-level ministry worldwide. I thank them deeply and the thousands of souls each day who respond to what we provide. It is amazing! We’re made for the end of the Age.”
