

Bladder & Bowel Institute Expands to Houston Area and Welcomes Daniel S. Hoffman, MD

The Woodlands, Texas Jul 15, 2026 ([IssueWire.com](https://www.issuewire.com)) - Bladder & Bowel Institute (BBI) is proud to announce that Daniel S. Hoffman, MD, a board-certified urologist with fellowship training in Female Pelvic Medicine and Reconstructive Surgery, has joined its growing medical team as the Director of Men's Health, and will operate at the new BBI location in the Houston area.

BBI Houston is BBI's third location, joining the existing BBI Arkansas and BBI Dallas locations. The expansion is part of BBI's continued commitment to helping patients access specialized care for bladder and bowel control symptoms in a private, supportive, and patient-focused environment.

"This is an exciting milestone for BBI and for patients across Greater Houston," said Jared Greer, CEO of Bladder & Bowel Institute. "Many people live with bladder or bowel control symptoms for years because they are embarrassed, unsure where to start, or think it is just a normal part of aging. Expanding into the Houston market allows us to bring education, support, and specialized care closer to more patients who need help."

Dr. Hoffman brings extensive urology experience to BBI Houston. His background includes medical education at Ponce School of Medicine, urology residency training at the University of Puerto Rico School of Medicine, and fellowship training at New York University Langone Medical Center. Dr. Hoffman's expertise includes managing conditions such as overactive bladder, urinary incontinence, stress incontinence, and benign prostatic hyperplasia (BPH). He is also a proponent of minimally invasive therapies, including neuromodulation techniques like sacral nerve stimulation and implantable tibial stimulation, aiming to improve patient outcomes with less invasive interventions.

"I am excited to join Bladder & Bowel Institute and help lead the Houston facility," said Dr. Daniel Hoffman. "Bladder and bowel control symptoms can affect sleep, work, travel, confidence, and daily life. My goal is to help patients feel heard, understand their options, and take the next step toward better control and quality of life."

BBI Houston is conveniently located at 10847 Kuykendahl Rd #150, The Woodlands, TX 77382. Patients and referring providers can learn more by visiting www.bladderbowel.com or calling (855) 224-4357.

Patients experiencing bladder leakage, urgency, frequency, nighttime bathroom trips, bowel control symptoms, or related concerns are encouraged to speak with a qualified healthcare provider to determine which evaluation or treatment options may be appropriate for their individual condition.

About Bladder & Bowel Institute

Bladder & Bowel Institute is the world's leading provider of advanced therapies for bladder and bowel control problems, dedicated to helping patients restore confidence, dignity, and quality of life through education, compassionate care, and proven treatment options. With multiple locations across the U.S., BBI serves patients across Arkansas, Texas, Missouri, Oklahoma, Kansas, Tennessee, Louisiana, and beyond. BBI focuses on helping patients experiencing conditions such as overactive bladder, urinary incontinence, and bowel control issues access specialized care and treatment options.
