

Blockbuster Energy, Book Form: Dex System Publishing's Galactic Summer Picks

Space-opera adventure for readers who want a bigger canvas without more effort.

New Rochelle, New York Jul 30, 2026 ([Issuewire.com](https://www.issuewire.com)) - Dex System Publishing is offering readers 'summer blockbuster energy, book form' with a space-opera feature built around scale and momentum rather than complexity — the kind of big, easy adventure that fits the second half of a summer that started with Fourth of July fireworks.

The list includes *Galaxy Outlaws* by Jack Wilson and *The Cosmic Awakening: Humanity's New Horizon* by Stan Bradley, joined by *Grokstar* from Fave and *Quade's Cosmos: A Journey Beyond Worlds* from Blake Edwards. Each title trades on spectacle — big stakes, big settings, and fast pacing.

"These are the books you hand someone who wants a movie-theater experience without leaving the couch," a Dex System spokesperson said. "Big canvas, low effort, high payoff."

The feature is aimed at genre-fiction roundups and sci-fi fan press looking for big-canvas adventure reads, and a cover-art carousel is available on request for outlets that support visual features alongside the text.

Fave's *Grokstar* marks one of the catalog's newer author names, and the team is glad to arrange an introductory Q&A for outlets interested in profiling emerging voices within the space-opera line alongside the more established authors on this list.

Each title on this list was chosen specifically for pacing over density — none require prior familiarity with a series, making the grouping a low-commitment entry point into the catalog's broader space-opera offerings.
