

COOL CAT TOPIA - Groundbreaking AI Animated Feature Film

AI-animated feature film is now casting celebrity voice talent to compete with the major studios.

1ST AI BOOK TO MOVIE ADAPTATION

COOLCAT TOPIA

Las Vegas, Nevada Jul 14, 2026 ([IssueWire.com](https://www.IssueWire.com)) - COOL CAT TOPIA—Groundbreaking AI Animated Feature Film

Independent filmmaker Derek Savage has adapted his Cool Cat children's book series into a 102-minute AI-animated feature film and is now casting celebrity voice talent to compete with the major studios.

“COOL CAT TOPIA” arrives as AI filmmaking rapidly emerges as one of the most talked-about developments in the entertainment industry. The film has already achieved a notable milestone as the 'First AI Book-to-Movie Adaptation in History.' With a current runtime of 102 minutes, it's among the longest AI-generated family feature films ever produced.

In the spirit of Paw Patrol and The Lion King, Cool Cat leads a fun, uplifting adventure about courage, friendship, and doing the right thing.

--FANS CAN JOIN THE MOVIE'S CAST

We are casting celebrities for voice-over roles, and to help pay the actor's fees, we are offering "VOICE OVER ROLES" in the movie. So if you've ever wanted to be in a movie or have your voice in one, here's your chance!

We're launching a Kickstarter campaign on Wednesday 07-15-26. All VO roles will get their "Name in the movie credits and on IMDb" as a real actor in this exciting film! The campaign also offers many additional great rewards for supporters of the movie.

--ABOUT COOL CAT

COOL CAT is an established brand with a global audience, including a clothing line, books, and previous films that achieved strong recognition and success: 'Cool Cat Saves the Kids' is known as the Anti-Bullying and Kids Gun Safety Movie. Cool Cat is a family-friendly character known for promoting positive messages.

The creator of Cool Cat and producer-director of the movie, Derek Savage, stated, “For decades, feature animation required the resources of major studios. Today, AI has opened the door for independent creators. Cool Cat Topia proves that creators can now produce large-scale feature-length animated films outside the traditional studio system and compete in this space against the corporations.”

Cool Cat Topia is currently in post-production. All animation has been completed using AI technology, and the film is approximately 85% finished with a current runtime of 102 minutes.

Cool Cat Topia will be completed later this year and represents a major landmark in the growing field of independent AI filmmaking.
