

Cordelle Luces Advances Nursing Education and Patient Care Through Leadership, Innovation, and Compassion

Emergency Room Nurse Educator, Clinical Instructor, and Advanced Nursing Professional Dedicated to Developing Future Healthcare Leaders

Monroe, Connecticut Jul 31, 2026 ([Issuewire.com](https://www.Issuewire.com)) - Cordelle Luces is making a meaningful impact in healthcare through his dedication to nursing excellence, education, and patient-centered care. As a Unit-Based Nurse Educator for the Emergency Room at Montefiore Medical Center's Jack & Pearl

Resnick Campus, Cordelle combines extensive clinical experience with a passion for teaching, preparing nurses to deliver high-quality care in some of the most demanding healthcare environments.

In addition to his role as a nurse educator, Cordelle serves as an intensive care and emergency room registered nurse caring for both adult and pediatric patients. His experience across critical care settings has strengthened his ability to mentor healthcare professionals, implement evidence-based practices, and support teams navigating complex clinical situations.

Beyond bedside care, Cordelle is deeply committed to nursing education. He serves as a Lead Instructor for Basic Life Support (BLS), Pediatric Advanced Life Support (PALS), and Advanced Cardiovascular Life Support (ACLS) at CPR You and Me, LLC, where he provides essential training that equips healthcare professionals with lifesaving skills. He also serves as a Nursing Educator and Clinical Instructor at Mercy University's School of Nursing and as an Adjunct Assistant Professor at CUNY Hostos Community College, where he helps guide and inspire future generations of nurses.

Cordelle's educational journey reflects his commitment to continuous growth and professional development. He earned his Associate of Applied Science Degree in Nursing from Med-Life Institute School of Nursing in 2018, followed by a Bachelor of Science in Nursing from Aspen University and a Master of Science in Nursing from United States University. His dedication to expanding his expertise continues through advanced studies, including a second Master's Degree focused on Family Nurse Practitioner from Mercy University, as well as postgraduate degrees in Nursing Education from Grand Canyon University, Healthcare Administration from Virginia University of Lynchburg, and Adult Health Nursing from Walden University.

His commitment to the nursing profession is further demonstrated through his active involvement with organizations including the Emergency Nurses Association, American Nurses Association, and African Nurses Association. Through these affiliations, Cordelle continues to stay connected with evolving healthcare practices while supporting the advancement of the nursing profession.

His passion for healthcare began through his early experiences as a Certified Nursing Assistant (CNA), where his interactions with patients inspired him to pursue a deeper role in healthcare. A pivotal influence in his career was Nurse Kathleen Ronca, whose mentorship encouraged him to continue his education, develop his skills, and pursue excellence in patient care.

For Cordelle, nursing represents much more than a career—it represents purpose and service. "My motivation stems from a deep-seated desire to care for my family and keep my community healthy. Nursing is not just a profession for me; it's a calling," he shares.

With a family background that also includes members of the nursing profession, Cordelle Lucas understands the importance of compassion, dedication, and service. Through his work in emergency medicine, nursing education, and professional mentorship, he continues to set a strong example of leadership while helping shape the future of healthcare.
