

Dex System Publishing Previews Its Late-Summer and Fall Slate

A forward-looking news hook on what's next from the AM I AM catalog.

Washington, D.C, District of Columbia Jul 30, 2026 ([Issuewire.com](https://www.issuewire.com)) - Closing out the month's momentum, Dex System Publishing is previewing several forthcoming and recent titles — a look ahead rather than a straight reading list, and a signal that the catalog's growth is continuing well past the Fourth of July kickoff to summer publishing season.

Highlights include *The Hard Handover: An Owner's Manual for the 2026 Transition* by Tomison Peters and *Sovereign Sync II: The Author Protocol* by Rane Corvus, continuing one of the catalog's most interconnected series. Also featured: *System Restore: Urban Re-Index* by Emit Jugal and *From Khartoum to Kharg Island: The Long War for the Global Jugular* by Liam Conrad.

"We wanted to give outlets a forward-looking hook instead of just another list," a Dex System spokesperson said. "This is about where the catalog is headed, not just what's already on shelves."

Dex System Publishing operates across a five-imprint structure with distribution through Amazon and Fable.co, positioning the catalog for continued growth into the fall. Outlets interested in early access to September titles are encouraged to reach out through the media contact below.

This preview is intentionally lighter on plot detail and heavier on publisher context, giving outlets a chance to cover the business and strategy side of Dex System alongside the usual title-by-title coverage.
