

Emily Sweatman, BSN, RN, Advances Emergency And Critical Care As Flight Nurse And Flight Paramedic

Bringing More Than Two Decades of EMS Experience and Advanced Clinical Expertise to Critical Care Transport, Patient Advocacy, and Healthcare Education

P, FP-C, CCEMT-P, continues to distinguish herself as a highly accomplished emergency and critical care clinician, bringing more than 20 years of experience in emergency medical services and over a decade of advanced nursing practice to patients throughout New York State. Her career reflects an unwavering commitment to delivering exceptional care across emergency departments, intensive care units, flight medicine, and community-based healthcare settings.

Currently serving as a Flight Nurse and Flight Paramedic with LifeNet of New York, Sweatman provides advanced critical care to neonatal, pediatric, adult, and geriatric patients during air medical transport. She has completed more than 500 flight missions, caring for patients with traumatic injuries, cardiac emergencies, neurological crises, respiratory failure, high-risk obstetric conditions, and other life-threatening illnesses. Her expertise includes advanced airway management, mechanical ventilation, extracorporeal membrane oxygenation (ECMO), intra-aortic balloon pumps, Impella devices, and rapid sequence intubation in complex and time-sensitive environments.

Beyond her clinical responsibilities, Sweatman has demonstrated exceptional leadership as a Base Lead and Outreach Coordinator, overseeing operational readiness, quality improvement initiatives, staff mentorship, and regional education programs for hospitals, EMS agencies, and fire departments. She has served as a preceptor for nurses and paramedics for more than eight years, helping prepare the next generation of emergency and critical care professionals through simulation training, airway education, and clinical instruction.

Sweatman's broad clinical background also includes intensive care and emergency nursing, home infusion therapy, field nursing assessments, and more than two decades of service as a New York State Paramedic. Throughout her career, she has provided advanced care across urban, suburban, and rural communities while collaborating closely with multidisciplinary healthcare teams. Her dedication has earned multiple patient commendations and formal recognition, including an award for saving the life of a choking three-month-old infant.

A graduate of Western Governors University with a Bachelor of Science in Nursing, Sweatman also holds associate degrees in Nursing and Paramedicine from Mohawk Valley Community College. She maintains numerous advanced certifications, including Certified Emergency Nurse (CEN), Certified Flight Registered Nurse (CFRN), Flight Paramedic Certification (FP-C), and Critical Care Emergency Medical Transport Paramedic (CCEMT-P). Active in several national professional organizations, she remains committed to advancing evidence-based practice, emergency preparedness, and excellence in patient care.

Through her clinical expertise, leadership, education, and dedication to compassionate care, Emily Sweatman continues to make a lasting impact on emergency medicine and critical care throughout New York State. Her career exemplifies the highest standards of professionalism and service, reflecting a lifelong commitment to improving outcomes for patients during their most critical moments.
